"Through repeated readings, these stories provoke fresh insight and more flexible thought in children."

NEA TODAY – The Magazine of the National Education Association

INTRODUCTION TO TEACHING-STORIES FROM HOOPOE BOOKS

Where schools are rare, education comes primarily from stories. For many, many centuries, the peoples of Afghanistan, Central Asia, and the Middle East have told stories among themselves and to their children. Idries Shah, who came from Paghman, Afghanistan, spent 30 years of his life collecting, selecting, and translating stories from this tradition. Those he selected were Teaching-Stories created specifically to help people of all ages better understand themselves and their world. Reading or telling these stories, even today, offers much more than entertainment – though, of course, they are entertaining – and much more than a simple moral.

Shah is the author of Hoopoe Books' collection of these ancient tales written especially for young people. Teaching-Stories contain, in the movement and thoughts of characters, in what happens to them, and in the challenges they face, information that informs and prepares us for similarly structured events in our own lives.

Students will take what they can from each tale according to their stage of cognitive development. At first, a student may respond only to one character or event in a story, or may understand only the most obvious meaning, but he or she will grasp a little more each time, bit by bit finding more meanings, concepts, and insights.

Through repeated exposure to these tales, children and adults, too, learn to understand their lives and reflect on how people think and act in various situations. These tales help us all learn to distinguish effective from ineffective patterns of thought and action. For students, these stories illustrate qualities such as self-reliance, the ability to overcome irrational fears, peaceful negotiation rather than violent confrontation, and much else.

USING THE TEACHING-STORIES

You will be able to accomplish many things by using the Hoopoe Books Teaching-Stories in your classroom including:

- To allow and encourage students to absorb each Teaching-Story so that it can help them understand and prepare for analogous situations in their own lives.
- To encourage students to enjoy and appreciate stories from the cultures of Afghanistan and other parts of Central Asia and the Middle East that have been told for many generations.
- To guide discussions of the stories in ways that each story will help students learn to think more effectively.
- To use the language patterns and vocabulary of the stories in ways that will help students learn to read and use language effectively themselves.
- To give students opportunities to think about the meanings of the stories in ways that will enrich their lives.
- To strengthen your relationship with your students by reading these works of literature with them.
- To give students ways of sharing the stories with their families and build stronger home/school communication.

HOW THIS GUIDE CAN HELP YOU

This guide gives you lesson plans for classroom use with one of the Hoopoe books. Students will get the most out of this story if you remember these points:

- Students need to hear a Teaching-Story several times in order to become familiar with it
 and begin to understand its meanings before they try to read it themselves. This guide
 will give you ideas for reading the stories to students, having them read the stories with
 you, and then having them read the stories with each other when they are able.
- Students understand and remember a story better if they discuss it with you and their classmates and relate it to their own experiences. This guide will give you ideas for engaging students in discussions so that they can express the meanings the stories have for them.
- Students enjoy a story more if they are able to respond to it in interesting ways such as drawing a scene, retelling the story, acting the story out, or writing in response to the story. This guide will give you ideas for enjoyable activities that are connected to the story.
- Students learn different reading and language skills from stories that help them improve their literacy. This guide will give you ideas for using the stories to teach reading and writing skills.

• Students will enjoy the stories even more if they share what they are learning with their families. This guide will give you ideas for having students share the stories and what they are learning at school with their families.

HOW THESE LESSONS ARE ORGANIZED

There are two days of read-aloud lessons designed so that students will hear the story and deepen their understanding. The third reading allows students to read the story independently. For those who don't read as yet, they can listen to the CD and turn the pages with the aid of the bell prompt. Additional readings are included with some activities. At least three readings are recommended so that students will be able to make the story their own. There are also a series of activities that give students the opportunity to respond to the story in a variety of ways.

There are also a series of activities that give students the opportunity to respond to the story in a variety of ways. These activities can be introduced on the days you are reading the story aloud as well as on other days. If you do an activity on a new day after the reading, you may want to refresh the student's memory of the story by playing the CD or reading the story at the beginning. You may choose the activities you want to do according to the abilities of your students and the time available. Each activity has an estimation of time needed. These activities include skills and strategies that will help your students improve in all areas of language and literacy, including listening, speaking, reading and writing.

SKILLS AND STRATEGIES IN THIS GUIDE

The skills and strategies in the Hoopoe Teacher's Lesson Plans cover all of the skills below, but not every strategy is covered in every guide. See page 6 for suggestions on how to use the activities in this guide to improve cognitive and affective skills as outlined by Bloom's Taxonomy. The skills and strategies in this guide include:

Personal Response

Students will develop their use of spoken, written, and visual language to communicate effectively. They will become engaged in the story activities, generating and exploring their personal responses. Students will have opportunities to think about the meanings of the stories in ways that will enrich their lives, thus "making the stories their own." They will acquire new understandings to respond more productively to the needs of society: at home and school and eventually in the workplace, as well as for personal fulfillment. Skills include:

discussion

drawing

• Readers' Theater

retelling

Vocabulary

Students will develop and increase their vocabulary. Skills include:

 developing understandings of denotations and connotations of words and phrases

Comprehension

Students will apply a wide range of strategies to comprehend and interpret the text, drawing on their knowledge of word meanings, prior experiences, and interactions with other readers. Skills include:

- synthesizing
- sequencing
- determining important ideas
- making inferences
- visualization

Word Study

Students will develop their skills in the area of phonics, etymology, structural analysis, and context clues, as well as vocabulary and dictionary skills. Skills include:

- using context clues
- phonics
- structural analysis
- etymology
- parts of speech
- spelling

Thinking

Students will respond to questions and complete activities that will deepen their ability to reflect on their reading and on their own thoughts, feelings, and behaviors. Skills include:

- generating analogies
- making predictions
- reflecting
- comparing and contrasting

ASSESSMENT

We have provided an informal assessment for one of the key strategies or skills for each lesson at the end of each activity. This rubric will allow you to observe and determine how your students' skills are improving. We do not include an assessment for every skill and strategy being taught. If there is a particular skill or strategy that you would like to assess and we have not provided it, you may wish to use this rubric as your model. Below you will see how each rubric is organized. Each activity concludes with a performance rubric.

RUBRIC SAMPLE:

Assessment: Name of Skill

Level 1: Indicates: Proficiency is not yet developed.

Level 2: Indicates: Some proficiency is evident.

Level 3: Indicates: Adequate proficiency is evident.

Level 4: Indicates: Above-average proficiency is evident.

LESSON PLANS FOR USING THIS TEACHING-STORY IN THE CLASSROOM

We recommend at least three readings of the story. The lesson plans are designed for you to read the story aloud at least twice (although not in the same day), and for your students to read the story independently. You will find activities to do before and during reading (HEARING THE STORY or READING THE STORY) and activities for after reading (RESPONDING TO THE STORY). For some of these, your students may wish to hear the story an additional time (either read aloud or by playing the CD). There is one more reading activity (THE READERS' THEATER) that is an ideal way to complete the class use of this story.

You may have a few things to prepare for a lesson. A day or two before you teach a lesson, look over the plan to make sure you understand the steps and make any necessary preparations. (A table outlining suggested Lesson Plans is below.)

We hope you and your students enjoy working with this Teaching-Story!

LESSON PLANS FOR THE BOY WITHOUT A NAME

These lesson plans are designed for a first read-aloud, followed by a second reading and finally a third "independent reading" of the story. There are many activities throughout these plans in the "Responding to the Story" sections that you can choose from depending on the abilities of your students and the time allotted. For one or two activities, we will recommend a further telling (or reading) of the story.

FIRST HEARING OF THE STORY	Hearing the Story Read Aloud	
(Read-Aloud)	Responding to the Story	
SECOND HEARING OF THE STORY	• Hearing the Story Read Aloud (Audio CD)	
(Read-Aloud)	 Responding to the Story 	
INDEPENDENT READING OF THE	• Reading the Story Independently with or	
STORY	without the Audio CD	
	 Responding to the Story 	
OTHER READINGS AND ACTIVITIES	Responding to the Story	
	• Do the Readers' Theater	

RESEARCH: A Scientific Understanding of the Teaching-Story

Bloom's Taxonomy: Cognitive and Affective Domains

In 1956, Benjamin Bloom, published a set of classification levels of intellectual behavior relevant in learning. Bloom's studies showed that most questions that students were required to answer used only the simplest level of thinking skills: recalling information.

In addition to the skills and strategies that are taught using these lesson plans, students are also moving through all levels of the Bloom's hierarchy of cognitive and affective skills. Working with these stories allows students to examine, explore, and enhance cognitive and affective attitudes.

Educators should also look for verbs (see sample lists below) with each one of Bloom's thinking or affective skills within the lesson plans. Many of the Hoopoe Teaching-Stories lessons meet multiple levels of Bloom's Taxonomy.

Bloom's Cognitive Domain¹

Bloom identified six levels within the cognitive domain: Knowledge, Understanding/ Comprehension, Application, Analysis, Synthesis, and Evaluation. The simplest levels of the taxonomy include recall and recognition of facts. The more complex levels of the taxonomy include more intricate and abstract mental levels.

Although other systems and hierarchies have been created, Bloom's taxonomy is easily understood and has been widely applied throughout school districts in the United States.

As educators, we want to teach students that different types of questions require us to use different complexities of thinking. By asking students questions that require simpler and more complicated level thinking skills, we are stimulating thought processes.

The following is a list of the levels of Bloom's taxonomy and includes examples of verbs that represent the intellectual activity on each level:

Simple Thinking Skills and Sample Behaviors:

- **S1. Knowledge**: define, memorize, repeat, record, list, recall, name, relate, collect, label specify, cite, enumerate, tell, recount, duplicate, list, recognize, order, repeat
- Example: Student will define vocabulary from the Teaching-Story.
- **S2.** Comprehension: restate, summarize, discuss, describe, recognize, explain, express, identify, locate, report, retell, review, translate, select, translate

Example: Student will retell the Teaching-Story during the museum walk lesson.

¹From Benjamin S Bloom, *Taxonomy Of Educational Objectives Book 1 / Cognitive Domain*, 1/e. Published by Allyn and Bacon/Merrill Education, Boston, MA. Copyright © 1984 by Pearson Education. Adapted by permission of the publisher.

S3. Application: exhibit, solve, interview, simulate, apply, use, demonstrate, dramatize, practice, illustrate, operate, calculate, show, experiment, write, schedule

Example: Student will dramatize the Teaching-Story by participating in the Readers' Theater.

Complex Thinking Skills and Sample Behaviors:

C1. Analysis: interpret, analyze, arrange, classify, differentiate, group, compare, organize, contrast, examine, categorize, inventory, question, discover, text, inquire, diagram, experiment Example: Student will compare and contrast character behaviors within the story.

C2. Synthesis: compose, setup, plan, prepare, propose, imagine, produce, generalize, design, predict, arrange, create, collect, construct

Example: Student will design his/her own tessellations.

C3. Evaluation: judge, assess, decide, evaluate, infer, deduce, choose compare, predict, revise, choose, conclude, recommend, select, determine, argue, support

Example: Student will justify his/her predictions regarding "what will happen next" in each Teaching-Story.

Bloom's Affective Domain²

Bloom's affective domain includes the manner in which we deal with things emotionally, such as feelings, values, appreciation, enthusiasms, motivations, and attitudes. The five major categories are listed from the simplest to the most complex behavior:

Bloom's Affective Skills and Sample Behaviors:

A1. Receiving Phenomena: Awareness, willingness to hear, selected attention.

Key Words: asks, chooses, describes, follows, gives, holds, identifies, locates, names, points to, selects, sits, erects, replies, uses.

Example: Student listens to the Teaching-Story being read. Student listens to the opinions and interpretations of others with respect. Student remembers the names of characters in the story.

A2. Responding to Phenomena: Active participation on the part of the learners. Attends and reacts to a particular phenomenon. Learning outcomes may emphasize compliance in responding, willingness to respond, or satisfaction in responding (motivation).

Key Words: answers, assists, aids, complies, conforms, discusses, greets, helps, labels, performs, practices, presents, reads, recites, reports, selects, tells, writes.

Examples: Student actively participates in class discussions. Student participates in Readers' Theatre presentation. Student questions new ideas, concepts, models, etc. presented in the Teaching-Story in order to fully understand them.

²From David R. Krathwohl, Benjamin S. Bloom, Bertram B. Masia, et al. *Taxonomy Of Educational Objectives, Book 2: Affective Domain*. Published by Allyn and Bacon/Merrill Education, Boston, MA. Copyright © 1984 by Pearson Education. Adapted by permission of the publisher.

A3. Valuing: The worth or value a person attaches to a particular object, phenomenon, or behavior. This ranges from simple acceptance to the more complex state of commitment. Valuing is based on the internalization of a set of specified values, while clues to these values are expressed in the learner's overt behavior and are often identifiable.

Key Words: completes, demonstrates, differentiates, explains, follows, forms, initiates, invites, joins, justifies, proposes, reads, reports, selects, shares, studies, works.

Examples: Student is sensitive towards individual and cultural differences (values diversity) and is able to examine and articulate a variety of points of view presented in the stories. Student is able to come up with a variety of possible solutions to problems explored in the lessons.

A4. Organization: Organizes values into priorities by contrasting different values, resolving conflicts between them, and creating an unique value system. The emphasis is on comparing, relating, and synthesizing values.

Key Words: adheres, alters, arranges, combines, compares, completes, defends, explains, formulates, generalizes, identifies, integrates, modifies, orders, organizes, prepares, relates, synthesizes.

Examples: Student is able to use systematic planning in order to complete an activity such as writing a "thoughtshot." Student is able to prioritize time effectively in order to meet the needs of the assignment and working with a group. Student learns to accept responsibility for her/his actions and explore options for different reactions to events when examining in the Teaching-Story.

A5. Internalizing values (characterization): Has a value system that controls their behavior. The behavior is pervasive, consistent, predictable, and most importantly, characteristic of the learner. Instructional objectives are concerned with the student's general patterns of adjustment (personal, social, emotional).

Key Words: acts, discriminates, displays, influences, listens, modifies, performs, practices, proposes, qualifies, questions, revises, serves, solves, verifies.

Examples: Student is able to make analogical connections between events in the story and his/her own life. Student shows self-reliance when working independently. Student cooperates in group activities (displays teamwork). Student uses an objective approach in problem solving. Student is able to revise judgments and changes behavior in light of new evidence learned in the stories. Student learns to value people for what they are, not how they look.

Story Synopsis

The Boy Without a Name

A boy is born and, just as his parents are about to name him, a wise man appears. He tells them that their son is very, very important and that one day he will give the boy a name and something marvelous as well. Until then they must be very careful not to name him. As the boy grows up, "Nameless" wants more and more to have a name of his own. He asks his friend Anwar to help him, and together the boys find the wise man. The wise man has many boxes, some containing names and some containing dreams. He gives Nameless the name Husni. Husni is able to discard the dream he doesn't want and both boys pick a dream of their own.

Among the many insights that this story introduces to students is the idea that it takes patience and resolve to achieve one's goals in life and that some aspects of oneself are "given" and some are "chosen."

"Educating the whole child is not a new idea. It is rooted in the writings and teachings of many ancient cultures. Yet, achieving the kind of balance that encourages all children to learn, work and contribute to their fullest potential has been a continuing challenge as our world has grown more complex and our communities more fragmented."

 Maurice J. Elias, "Academic and social emotional learning," Educational Practices Series-11, International Academy of Education (Brussels) & International Bureau Education (Geneva), 2003.

I. 1st HEARING OF THE STORY

A. Making Predictions

Reading books aloud to students is one of the most important things you can do. When done with skill, on a regular basis, reading stimulates development in all areas of language and literacy: listening, speaking,

reading and writing. This easy-to-do activity builds a range of important cognitive and communication skills. This basic activity addresses many objectives. Reading together is also a social activity, creating a bond between the child and the reader. We often think that students in this age group are "too old" to be read aloud to. Nothing could be further from the truth. Older students, as well as younger ones, enjoy hearing stories read aloud, and you are helping to build habits that students will take into adulthood.

You are also helping to build the habits that good readers have when you stop and ask prediction questions to encourage students to engage with the text.

This story, with its unexpected twists, invites speculation at turning points, an activity that improves children's thinking and comprehension of the story.

Thinking

• making predictions

Bloom's Taxonomy of Cognitive and Affective Domains

 See page 6 for suggestions on how to use this, and other activities in this guide, to improve cognitive and affective skills as outlined by Bloom's Taxonomy

When read straight through without interaction with your students, this story takes about 7-8 minutes of reading time. This session should take 40-50 minutes of uninterrupted time.

TO PREPARE FOR THE LESSON

- Practice reading the story aloud a few times before you read it to your students so that you will know the story and will read smoothly. Read with expression! By reading well, you demonstrate to students how to read the story effectively when they are ready to read it on their own. You may decide to use different voices for different characters. Students love it when you do this!
- Before you read the story, decide on three or four places to pause during the reading and have students discuss what they think will happen next in the story. Asking them to make predictions like this (without knowing for sure what is going to happen) is a very good way of developing their thinking abilities. Also, it is a way of giving them reasons to listen carefully to the story. They will want to find out if their predictions are correct! A good place to pause is when there is a "turning point" in the story—when there is some suspense about what will happen next. We have suggested places to stop and invite predictions in the "during reading" section. You may wish to use these or choose your own places to stop.
- You may want to research some of the elements illustrated in the book to help students learn the features and names of them. For instance, research Afghan (or Islamic) architecture, clothing styles, furniture, decorative designs, etc.
- Make sure that you have a copy of the book for each student. You will give these out after you have read the story and done the prediction activity with the students.

Before Reading

1. Making predictions helps to activate students' prior knowledge. This story was designed to help improve student's thinking and comprehension. It has distinct patterns of language and events that invite participatory listening and that lead to predictions about what will happen next. Hold up the book so that the students can see the cover. You may want to walk around so that every student can get a close look at the cover. As you are showing the book, introduce it by telling a little about the story and the author. Say something like this:

This story has been told for many, many years in Afghanistan. It is called a "Teaching-Story" because you can learn about yourself and others by hearing the story and thinking about it, as we will be doing.

There are many versions of this story. The author of this version is Idries Shah. He was a highly accomplished man who came from Paghman, Afghanistan. During his lifetime, he wrote many books for adults as well as for children. Many of them contain Teaching-Stories such as The Boy Without a Name.

2. To get students started in making predictions when they hear the story for the first time, read the title, show them the jacket illustrations, and say:

What do you think is going to happen to the boy in this story? Why do you think so?

Why do you think the boy in the story doesn't have a name?

Do you think he'll get a name? How do you think this will happen?

Let's read the story and find out more about the boy without a name and what happens to him.

Tell students that all predictions are good because they involve good thinking and that it is all right for them to disagree on what will happen next. Tell students that good readers make predictions all of the time (in their heads) as they are reading. Then, as the events in the story occur, good readers adjust their thinking and alter their predictions as they read ahead.

I am going to read the story to you now. Listen carefully and look at the pictures as I read. Sometimes, I will stop and ask you what you think will happen next. You will probably not know for sure, but think about what has already happened and what might happen next. Listen carefully so that you can figure out what will happen next!

When I finish, I will show you the pictures again and you can tell what you remember about the story.

During Reading

- **3**. Hold the book so that all the students will be able to see the pictures as you read. Read slowly, with expression, and pause before turning the pages to give the students a moment to think about what they just heard and to look at the illustrations. You may want to walk around the room as you read to let everyone see the illustrations up close.
- **4.** Each time you pause to have students make predictions, ask these questions:

What do you think will happen next in the story? Why do you think so?

What details from the story are you using to make your prediction? (A prediction is a statement of what you think will happen in the future, based on what you already know. Remember, good readers are always making predictions in their heads as they read or listen to a story.)

Remember that all predictions are good because they involve good thinking and that it is all right for students to disagree on what will happen next. Call on different students to give their predictions. When one student gives an idea, ask the others if they agree or disagree and ask them to give their reasons. Encourage students to debate their ideas. Allow enough time for discussion so that several students have a chance to make predictions and for the class to discuss the ideas. Then continue reading to the next stopping point.

Here are some suggestions for places to stop and invite predictions:

• At the beginning of the story, when the boy's parents meet the wise man:

"This is a very, very important boy," he told them, "and I am going to give him something marvelous one day, but I will have to give him his name first. So please don't give him a name yet."

What do you think the wise man is going to give the boy? Why do you think so?

• When Anwar says he doesn't have a name for Nameless:

"Besides, what would you give me if I did give you my name? You haven't got anything."

Do you think Nameless has something to give Anwar? What might it be?

- When the boys go to see the wise man:
 - "I know many things. And, besides, I was expecting you," said the wise man. What do you think the wise man will do to help? Why do you think so?
- When Anwar asks about getting a dream:
 - "Patience, my boy!" said the wise man.

What do you think the wise man will do? Why do you think that?

5. Class Word List: As you read make sure that students understand the words in the story. If you come upon a word that you are not certain they know, stop and ask for someone to give a meaning for the word. Encourage students to use the context of the story to determine the meaning. If students do not know the meaning of a word, explain it briefly and then continue reading. After this reading, you may want to start a running class list of the words that students are learning (see next activity).

After Reading

6. When you finish the book, tell students they did a very good job of listening and making predictions about what might happen next and that now you want them to think about the story. **Ask students:**

What is the most important part of this tale to you? Why is that part especially important?

What does this story make you think about?

What questions do you have about the story?

- **7.** Give each student a copy of the book and have them look through the book looking carefully at the illustrations, examining the details and designs.
- **8. Start a list of their observations** on chart paper or the board so that you can add to it each day you read the story. There are many interesting elements pictured in the book. Give the students a chance to look carefully at the illustrations (examining the details and designs) and to learn the names of the various things pictured, some of which may be unfamiliar to them.

Tell students that they may take their books home with them and encourage them to read the books with their families. Tell students that they will need their books in class, so

remind them to bring them back to class each day while you are working with the story. Encourage them to read the story aloud to someone in their family.

ASSESSMENT: Making Predictions

Levels of mastery 1-4

Level 1: Student is unable to make predictions when invited or makes predictions that are not logically related to the available information.

Level 2: Student is able to predict an outcome that follows logically from the available information and gives a reason to support the prediction. Student may or may not remember the prediction when reading on and does not always recognize when new information relates to the prediction.

Level 3: Student is able to predict an outcome that follows logically from the available information, gives a reason to support the prediction, recognizes when new information relates to the prediction, and keeps or revises the prediction accordingly.

Level 4: Student is particularly astute in using available story information in making and justifying predictions and in using subsequent information to keep or revise the predictions.

"A form of literature little-known in the West but common in Afghanistan can help develop thinking skills and perceptions..." says Robert Ornstein, Ph.D., neuropsychiatrist, educator and author.

"...Reading Teaching-Stories activates the right side of the brain much more than does reading informational text. The right side of the brain provides 'context,' the essential function of putting together the different components of experience. The left side provides the 'text,' or the pieces themselves. Familiarity with these stories can expand context: enabling us to understand more about our world and our place in it."

From a lecture at Library of Congress on "Teaching-Stories and the Brain"

B. Developing Reading & Speaking Vocabulary

Students tend to use the same words over and over again in speech and in writing. An ABC Word List is a terrific way to encourage students to build vocabulary and avoid using the same words repeatedly. Students will be able to have access to many more words if they organize their words in alphabetical lists. Class word lists can be developed on chart paper and left up in the room for students to use during writing and/or speaking. During peer editing, students can refer to the lists to find suggestions for substitute words. Students can also keep their own ABC Word Lists in three-hole notebooks and add to them whenever they have free time.

After a while, they begin to "own" all of these words. Using the ABC format gives the students a challenge and is a great way for them to organize their words. This word list will be used for students to write words from the story as they are reading it. There are many other ways to organize words for their ABC Word Lists.

SKILLS AND STRATEGIES

Vocabulary

developing an understanding of words and phrases

Word Study

• learning and using words in writing

This sequence of activities should take about 30-40 minutes of uninterrupted time.

TO PREPARE FOR THE LESSON

- Tape a piece of chart paper up on the board and write the letters of the alphabet in two vertical lines, leaving enough space between letters to write words (see example below). Place the paper low enough for students to write on. Alternately, write the letters of the alphabet in two vertical lines on the board at a height for students' reach.
- Have available three-hole lined notebook paper, a binder* or a composition book for each student in the class to use for an individual notebook.
- If students have already made an ABC Word List for another book, have them add pages for *The Boy Without a Name* in their binders.

^{*}If a binder is not available, the student can place their papers inside an 11" x 17" folded piece of construction paper and fasten with clips or brass fasteners.

¹. Have the students write the alphabet on an $8 \frac{1}{2}$ " x 11" sheet of lined paper, skipping one line between each letter. Have them put the letters A - M on one side of the paper, and the letters N - Z on the other (see example below).

- **2.** Have the students look through the book to find words they want to use and remember and write them in their ABC Word List opposite the letter of the alphabet in which they belong.
- **3.** After 10 minutes, form the students into pairs (or into groups) and have each student take turns sharing a word with their partner and discussing why they added the word to their ABC list. (Students must know what a word means before adding it to their lists.)
- **4.** After a few minutes of discussion, have students take turns writing one their words onto the class list beside the appropriate letter. Go around the room until everyone who wants to has contributed one or more words. Students can add all of these words to their own lists as well.
- **5. Making Other Word Lists:** Some students may want to find and list other kinds of words. For example, they could look for and write down words from *The Boy Without a Name* which describe actions or movement, such as "remember," "knocked" or "continued" (i.e., verbs). Or they may want to list words that describe the characters in the book, such as "very important boy" or "magic box" (i.e., adjectives and nouns).
- **6**. Tell them they are welcome to add as many words to their list as they want for *The Boy Without a Name*, and that they will have more chances to do so on other days. Tell them that they can make word lists for any book they read. Keep the Class ABC Word List up and add to it through all activities using this book.

Example of A B C Word List for some words from The Boy Without a Name

A	anything, absolutely	Ν	next, name
В	besides, boy	0	opened
C	careful, cushions	P	promised, patience, popped
D	dream	Q	
Ε	everybody, expecting	R	remember
F	forever, fortunately, friend	S	shoulders, strange, stroked
G		Т	though
Н	hooray	U	
I	important, inside	٧	
J		W	wonderful, without
K	knocked	X	
L language		У	
M marvelous		Z	

7. Reinforcing Understanding of Vocabulary and Parts of Speech: You may want to use words and phrases from the story to reinforce students' understanding of various parts of speech. Here are some activities you may want to use for that purpose:

a. Have students use the following pairs of words from the story in sentences to reinforce their meaning. The sentences need not be the actual sentences from the story. Examples of pairs are:

sprang onto magic box
marvelous dreams next house
wise man important boy

Examples of sentences using these pairs are:

You may also wish to have students look for other such pairs of words from the story and use them in new sentences in the same way.

b. Select sentences or short passages from the story, leave out specific words, and have students choose from a list the words to complete each sentence. You may want to explain to students that the exercise will give them practice in using different parts of speech. For example, you might say: "Remember that adjectives are descriptive words, verbs are action words, adverbs describe how, when and where..." and so on. Here's an example of a word list:

Words to choose	from:		
something	name		
magic	another		
cushions	knocked		
absolutely	onto		
lid	everything		
"The boys visited the wise man and sat down on the" [choose a noun]			
"They went to the wise man's house and	on the door." [choose a verb]		

ASSESSMENT: Word Study

Levels of mastery 1-4

Level 1: Student is unable to recognize words that have been read or discussed or to use them in vocabulary activities.

Level 2: Student is able to use some words in vocabulary activities.

Level 3: Student is able to use many words correctly in vocabulary activities but cannot think of other kinds of words to use on his/her own.

Level 4: Student is able to use many words in an alphabetical list and identifies other types of words to use as well.

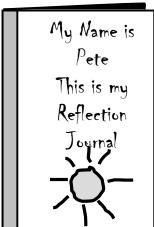

[&]quot;The boys could see the marvelous dreams inside the box."

[&]quot;A name sprang onto his shoulder and went into Nameless' ear."

C. Creating a Book - For Personal Response Journal

Students can gain an appreciation of books and understand how they can become an instrument of communication. Books are an art form unto themselves. The form that a book takes influences how we view the contents. When students make a book by hand, they learn about the art of book-making and gain an appreciation of books as an art form. They also experience how to make a book for their own use.

This sequence of activities should take about 50-60 minutes of uninterrupted time.

TO PREPARE FOR THE LESSON

- Have all materials available for students. (More detailed instructions are included in this guide.) You will need:
- Stiff felt, glue, paste spreaders, pencils, white drawing paper (large), white cardstock for book covers, several hole punches, fade-resistant construction or art paper (12"x 18" 12 sheets per book), yarn or string, and newspaper for protecting the workspaces. Drawing and painting supplies such as markers, crayons, colored pencils, paints for decorating the book covers.
- Cut ahead of time a 3" x 18" strip of stiff felt (spines) and 2 covers from cardstock for each book to be made, at least 10"x 14".
- Draw a light guideline 1" from the edge of the front side of each cover. (This will mark the gluing area.)
- Read through the instructions so that you are familiar with all of the steps. You may wish to make a book ahead of time to ensure you are familiar with the procedure.
- 1. Lay out all the materials where students can get to them easily. It may be best to make one book ahead of time to show what the end product will look like. Demonstrate the construction and assist those students who need help. You may want to make several copies of the instructions for students' referral.
- **2.** Have the students make the covers first, then the inside pages. The process could take two sessions, so be prepared to store the parts at school until the books are made. Have them draw or decorate the covers after all assembly is completed and the books are dry.
- **3**. Once the books are completed, students may use their books for their personal responses to this story. They may write directly in the books, and also may glue work that they have created onto the pages in the book.

Remind students that their personal response journals are private and that they don't have to share any of their entries with the class. If you are collecting these to look at, you can have students put a star on pages that they do not wish you to read. You would then only read those pages without any star on the top.

4. If possible, have the students keep the books in the classroom until after the "Personal Journal Writing" exercises are finished.

II. RESPONDING TO THE STORY

Drawing Parts of the Story

Students can stimulate their creative imagination and refine their thinking with this enjoyable activity. This activity will encourage students to become more observant and creative, pay more attention to detail, and increase their visualization skills.

SKILLS AND STRATEGIES

Thinking

- compare and contrast
 - Comprehension
- visualization & sequencing

This sequence of activities should take about 30-45 minutes of uninterrupted time.

TO PREPARE FOR THE LESSON

- Have a variety of drawing instruments such as crayons, markers, and colored pencils available and well placed for students to use.
- Have blank or graph paper available for students to use.
- Have a CD of the story set up to play, or the class copy of the book for you to read.
- If students are going to use the journals they created, remind students who kept their books that they will need to bring those books to class if they wish to use them for this activity.

II. Responding to the Story/Drawing Parts of the Story

- You may wish to read through these directions so that you are familiar with the steps to follow.
- Make a list of suggested scenes indicating the beginning, middle and end of the story. (See suggestions are below).

By listening to and imagining a story, we make it more our own than when we listen to and see a story. An excellent way for students to remember the story is to have them listen to and visualize it. They can then draw the story from their imagination. You might say something like this:

For thousands of years this story was told by campfire and candlelight to people of all ages. They had no illustrations, no TVs, no pictures at all. So people made pictures up in their heads – they imagined what the scenes in the story looked like, just like the illustrators did for the pictures in this book.

I would like you to do the same thing: I am going to read/play the story again, and I would like you to listen. Then I will give you a section of the story to illustrate. Your picture will not have to look like the illustrations in the book. It can be entirely your own creation.

Here are some steps for this activity:

- **1**. Play the CD of *The Boy Without a Name* or read the story and have the students listen. They may like to close their eyes while they do this.
- **2.** To make sure that the entire story is illustrated, divide the class into three areas, and give one area the beginning, one the middle and one the end of the book to draw from. Below are some suggested scenes. You may want to write these scene descriptions on pieces of paper (or note cards) and distribute a set to each area of the room. Students can then decide among themselves who will draw the various scenes, working individually or with a partner on the pictures.

Suggested Scenes

The Beginning of the Story:

- ❖ The view of the town where the story takes place.
- ❖ The parents are visited by the wise man who tells them not to name the boy.
- ❖ Nameless wants a name of his own like everyone else.
- Nameless goes to visit his friend Anwar and asks him for a name.

The Middle of the Story

- The boys go to see the wise man.
- ❖ The wise man invites them in and shows them his magical boxes.
- ❖ The wise man opens a box with all the names of the world inside.
- The wise man gives Nameless the name Husni.
- Husni is very pleased with his name.

The End of the Story

❖ The wise man tells Anwar to be patient.

- ❖ The wise man opens a box full of dreams that people don't want.
- ❖ Husni puts his dream in the box.
- ❖ The wise man opens a box full of wonderful dreams.
- ❖ The boys each pick one dream.
- ❖ From then on the boys always have wonderful dreams
- **3**. Hand out paper, drawing and/or painting tools such a pencils, crayons, markers, and watercolors and let students draw or paint their pictures. Have a book available for each group to use for referral. You may also encourage the students to talk to one another about the story and about what they are drawing or painting. Students might also choose to work in their personal response journals.
- **4.** When students have finished their drawings or paintings, do one or more of these activities:

Retell the Story: Start with students who drew the initial part of the story and have them organize their drawings in sequential order to follow the story. They may want to hold their pictures in this order in front of the class. There may be more than one drawing of the same scene which is okay. Have any student from this group volunteer to retell their part of the story by pointing to each drawing during the retelling.

Do the same for the middle and the end of the story, so that all your student illustrators have had a chance to show their drawings and have them incorporated in the retelling.

Have a "Museum Walk": Post the drawings on the wall of the classroom (if there is not enough room, do this in groups) in sequence of the story. On a volunteer basis, have students take turns standing beside their drawings (or holding up their drawings in the created books if done that way) and talking to the class why they chose the scenes and what was important or interesting about the depiction to them and/or have them answer questions from the class about their drawings. Once all the students who would like to speak have had a turn, have the students move around the "museum" as a group to view the art. You may want to organize the movement in one direction for traffic-flow purposes, or organize the students into groups and have each group take turns doing the "Museum Walk." Additionally, you may want to go to a library and check out an art book from a well-known museum and show the students how other museums display their art.

Make a Class Book: Collect all the students' artwork, organize the pictures in story sequence, bind together with fasteners or clips, and have the students design and make covers for the book (see below). You may also want to make more than one book if there are a large number of pictures. Keep the book(s) in the classroom library and invite students to retell the story in small groups or to the whole class by going through the book and telling about the scenes depicted in the drawings or paintings.

Make Book Covers for the Class Book: Have the students form into three groups to help design and create covers for the Class Book. Explain to them that this will be a project that the whole class will be participating in, and that every group has an

II. Responding to the Story/Drawing Parts of the Story

important job to do. The first group (the "engineers") can determine the size and the type of paper or material and the "binding" mechanism (yarn, fasteners, etc.); the second group (the "designers") can determine what pictures to put on the cover and the title and text; and the third group (the "art department") can work together creating the drawings and writing, taking turns with each other on drawing and/or writing, based on the other groups' plans.

ASSESSMENT: Visualization & Sequencing Skills

Levels of mastery 1-4

Level 1: Student is unable to interpolate and draw what he/she thinks is important or interesting to him/her and is unable to retell a part of the story.

Level 2: Student is able to make a modest drawing of a part of the book, but is unable to tell why it is interesting or important to him/her or how it fits in the story.

Level 3: Student is able to think of important or interesting parts, understands the part of the story and is able to draw them.

Level 4: Student is able to think of many interesting parts, relate importance to them, and create unique drawings and retell the story accurately.

"Constructing meaning is the major requisite to learning and the core of intellectual processing. When children make analogies, they are constructing meaning by relating something that is both emotionally and intellectually familiar to them with the new information. This is a very powerful way to learn."

-Yvette Jackson, Ph.D., National Urban Alliance for Effective Education, "Reversing Underachievement in Urban Students: Pedagogy of Confidence" in Costa, A., *Developing Minds: A Resource Book for Teaching Thinking*, ASCD, 2001.

III. 2nd HEARING OF THE STORY - MAKING INFERENCES

A. Developing Comprehension

Discussing the story allows students to internalize the story by thinking about it in a variety of ways. Students can reflect on the story and use it to help them understand new situations and experiences. Students will gain competency in their compre-hension by making inferences when discussing the story.

When asking questions, it is important to give students time to think about the question and their answers. When we use "wait time," we increase the quality and quantity of students' responses and we encourage more students to join the discussion.

SKILLS AND STRATEGIES

<u>Personal Response</u>

- discussion
- drawing & retelling

Vocabulary

 developing an understanding of the denotation and connotation of words and phrases

Comprehension

- determining important ideas
 - making inferences
 - synthesizing

Thinking

reflecting

This sequence of activities should take about 30-40 minutes of uninterrupted time.

TO PREPARE FOR THE LESSON

- Read through the lesson and decide which factual, comprehension and reflection questions you wish to ask.
- Make sure you have available a copy of *The Boy Without a Name*.
- Students may want to use their ABC Word Lists.

When you have finished reading the story, engage the students in a discussion. You may want to pair the students with a partner for discussion. During the discussions, let the students know that you have no interest in quizzing them and that you do not know all

the answers; that instead you want to wonder and search with them and that you are interested in big ideas and you know they are, too.

Explain that you are going to wait between the time you ask a question and the time you call on a student (or a pair) to allow everyone some time to think about the answers. After each question, have students discuss with their partner what they would say to answer the question. Give the pairs at least 30 seconds to discuss their thoughts with each other, longer if needed.

Do not insist on a response from any student who does not wish to answer; this should be a safe time for them to think about the story without fear of being "put on the spot." However, invite all of the students to speak up, and be sure to encourage those who do not usually raise their hands, in case they are ready to participate.

Students may refer to their books during discussions. They may want to add words to their ABC Word Lists or write more observations on the list started in the first reading.

Here are some examples of questions that you might ask students to help develop their comprehension of the story and encourage them to recall key events.

Factual Questions:

Use questions such as the following as a "warm-up" for the discussion to ensure that students understand the facts of the story and the vocabulary.

- ❖ Why didn't his parents give "Nameless" a name when he was born?
- ❖ What did the wise man say to the parents of the boy?
- What did Benaam offer Anwar in exchange for his name?
- How did "Nameless" finally get his name? What was it?
- ❖ Did Benaam get rid of the dream he didn't want?
- Did Anwar get Benaam's dream?
- ❖ How does Anwar get what he wants? Is it exactly what he thought he wanted?
- ❖ What does the wise man say when the boys arrive at his house?
- ❖ Did Benaam choose his own name?
- ❖ *Did the boys choose their own dreams?*

Questions for Higher-Level Thinking (Inferential Questions):

You can also help students develop skills in identifying and understanding main ideas and relationships and in making inferences. Students will develop their ability to identify with the characters in the story, their feelings and the situation. Here are some suggestions for comprehension and reflection questions you might ask to initiate the discussions:

- ❖ Why do the boys go to see the wise man?
- ❖ Why did the wise man not want the parents to name their son?

- ❖ How did Benaam feel about not having a name?
- ❖ Do you think Benaam knew that he had to get his name from the wise man all along? Why or why not?
- Do you think it would have been possible for Benaam to find the wise man before he did? Why or why not?
- ❖ How do you think the wise man knew that the boys were coming to see him?
- ❖ Why do you think the wise man gave Benaam a name, but allowed him to choose a dream?
- ❖ What did Husni do with the dream he didn't want?
- Anwar said that he wanted the dream that Husni didn't want, but did he really? Why or why not?
- ❖ Which of the boys do you think had the most patience Husni or Anwar? Why is that?
- ❖ How old do you think Benaam was? Anwar? Why do you think so?
- ❖ What is the most important part of this story to you? Why is it important?
- **❖** What other questions do you have?
- ***** *This story ends with:*

And after that, forever and ever, Husni had a name and the two boys, Husni and Anwar, always had wonderful dreams.

What does this mean to you?

ASSESSMENT: Making Inferences

Levels of mastery 1-4

Level 1: Student is unable to make reasonable inferences; often misinterprets key ideas and does not provide reasonable support even with teacher support.

Level 2: Student is able to make some simple inferences; may be somewhat vague or confusing or goes somewhat beyond what can be logically supported by the text. Student provides limited support; is often vague or incomplete.

Level 3: Student is able to make simple inferences and provides adequate support; is often somewhat general.

Level 4: Student is able to make inferences with some insight; may show some complexity. Provides effective support and is often specific.

B. Using Words & Phrases - Playing Charades

Once students have heard and discussed the story and you have made a vocabulary list of words that they did not know before, they will probably be ready to learn how to use these words in speech and writing.

SKILLS AND STRATEGIES Vocabulary

• developing an understanding of words and phrases

This sequence of activities should take about 30-40 minutes of uninterrupted time.

TO PREPARE FOR THE LESSON

- Look over the lesson plan so that you are familiar with the steps to follow, including how to play Charades.
- Prepare short phrases or sentences on note cards or small slips of paper using words from the class vocabulary list and phrases or sentences from the *The Boy Without a Name* book, underline the vocabulary word, and place the cards in a basket or bowl. If you have students who have difficulty reading, you may wish to add pictures to the cards which represent the word or phrase.
- **1.** Tell students that they will be learning to recognize word in context using words from the story you have been reading with them. Tell them that they will be playing a game of Charades and that everyone will have a chance to play the game.
- **2.** Review the phrases/sentences that will be featured in the game with the students. (Use short items, such as "I've got a <u>dream</u> I don't want," so students can remember them better.) Tell the students you have written the items on note cards and are mixing them up in a basket. They are going to draw one out of the basket randomly and act out what's on it so that their team can guess what it is. They may not use audible words when they do the acting out, they must be silent. If their team can guess the underlined word (for instance, as above, "dream"), they get 1 point; and if they can guess the entire phrase or sentence, they get 2 points.
- **3.** Since some students may be unfamiliar with the game of Charades, show the students how to play the shortened version of the game below by drawing one of the cards out of the basket yourself and acting it out for the entire class. Have the students guess what the word or phrase is.
- **4.** When you are certain that students know how to play the game, divide the class into Team A and Team B preferably of equal size. Have both teams sit next to each other (or

opposite each other) on the floor in the front of the room, if possible. The player will be standing when "acting" out the words.

5. Select a timekeeper and a scorekeeper for each team. The timekeeper for Team A keeps time whenever Team B is playing, and vice versa. The team scorekeeper keeps his/her team's scores by writing down their team's points on a scorecard. You can have different students do this during the game if more than one wants to be the timekeeper or scorekeeper.

Charades

Place the basket of cards on a table near the teams so that when one is drawn out, only the player will be able to read it. Tell the timekeeper to allow 2 minutes for each player, but to give the player at least 15 seconds to plan what he/she is going to do. Each round of the game proceeds as follows:

- A player from Team A draws a card from the basket. After the player has had a short time to think and plan, the timekeeper for Team B tells the player to start. Team A then has two minutes to guess the word or phrase. If they figure out the underlined word in time, they get 1 point and if they figure out the entire phrase, they get 2 points, and Team A's scorekeeper notes this on their scorecard. If they do not guess either in two minutes, they get no points and the player reads the card so they all hear what it was.
- A player from Team B draws a phrase from the basket, and play proceeds as above, with Team A's timekeeper telling Team B's player when to start.
- Normally the game continues until every player has had a chance to "act out" a phrase.
- The score for each team is the total points earned. The team with the highest score wins the game.

Gestures: To act out an item, one usually starts by indicating how many words are in the item by holding up fingers for the number of words. From then on, the usual procedure is to act out the words one at a time (although not necessarily in the order that they appear in the phrase). In some cases, they may wish to act out the underlined word first, then the rest of the phrase.

Keep the basket of phrases/sentences handy for student pairs or groups to play on their own, if there is time and space. Periodically, add new phrases/sentences to it.

Additional Activity: Picture-ades

Students may want to play a different form of Charades where they draw a picture or scene that incorporates the words or phrases, and their team must guess what it is. Make sure the rules of this game indicate only pictures can be drawn and no words are allowed in the drawings. This activity can be played with as few as 2 players.

ASSESSMENT: Vocabulary

Levels of mastery 1-4

Level 1: Student is unable to recognize words that have been taught, cannot use them in phrases, and is unable to express their meanings.

Level 2: Student is able to understand words being taught, can use some in phrases, and is able to express their meanings with some assistance from the teacher.

Level 3: Student is able to understand words being taught, can use some in phrases, and uses appropriate gestures to express their meanings.

Level 4: Student is able to understand words being taught, can use them in phrases, and uses exceptionally inventive gestures to express their meanings.

IV. INDEPENDENT READING OF THE STORY

A. Developing Reflection & Analogical Thinking

Teaching-Stories are designed to teach us through analogy, so students should be encouraged to think about and relate the characters, their actions and thoughts to their own lives, thoughts and behaviors.

For this third experience with the story, the students will read the story independently or you may want to read the story aloud or play the CD while students follow along with their books. After the reading, the students will review the story and begin a class discussion using reflection and analogical questions which encourage students to see the relevance of the story to their own lives.

SKILLS AND STRATEGIES

Personal Response

discussion

Comprehension

- determining main ideas
 - making inferences

Thinking

- reflecting
- generating analogies

This sequence of activities should take about 45-55 minutes of uninterrupted time.

TO PREPARE FOR THE LESSON

- Make sure that you have a copy of *The Boy Without a Name* book for each student. Have a CD and CD player if you are using the audio CD for the read-aloud.
- If you are going to use the journals created earlier, remind students who kept their books that they will need to bring them to class.
- Read through the lesson and look at the reflection and analogical questions. Remember to allow wait time when asking questions. Using pause time improves the quality and quantity of students' responses.

1. Before Reading

With this reading, students can refine their comprehension of *The Boy Without a Name* by reading independently or hearing the story read and reviewing the story. You will begin discussions through question and answer sessions to engage their thinking about its relevance to themselves. You may tell those students who would like to read independently that they may do so (make sure these students have a quiet corner to do their reading). Students who need to use the CD for reading can use earphones or be placed where the recording will not be too loud for others.

Remind your students that this is a "Teaching-Story" created in order to help people learn about themselves and others. By hearing the story and thinking about how each of the characters act, what happens to them because of the way they act, we can all gain insights into our own behavior and the affect on our lives. Tell your students that after they read or hear the story, they will start to think about this.

During the discussions, once again let the students know that you have no interest in quizzing them and that you do not know all the answers; that instead you want to wonder and search with them for big ideas and you know they are, too.

When your students have had a chance to read or listen to the story, you may wish to have the students review the events in the story by taking turns summarizing the events in order, using the illustrations in the book as prompts. After the reading and review, begin asking reflection questions. Remember to use wait time.

2. Developing Reflection

Asking questions that invite students to interpret and reflect on events in the story will help develop their ability to identify with the characters in the story, their feelings and the situation. You may want to read extracts from the book, then engage the students with questions to stimulate reflection. Here are some suggestions on parts of this story and questions to choose from.

The wise man told the parents:

"This is a very, very important boy," he told them, "and I am going to give him something marvelous one day, but I will have to give him his name first. So please don't give him a name yet."

Why do you think the wise man doesn't give the boy his name and something marvelous right away? Do you think he should have? Why or why not?

The wise man told Nameless and Anwar:

"I am going to give you one dream each..." And then he asked them each to pick a dream. And they did.

Why do you think the wise man only lets them choose one dream each? What dream do you think Husni picked? Why? What dream do you think Anwar picked? Why?

Anwar said to the wise man:

"But I want the dream that Husni promised me!" "Patience my boy!" said the wise man.

Why do you think the wise man told Anwar to be patient?

Did Anwar get the dream that Husni didn't want in the end?

What do you think it would be like to not have a name?

Was it a good idea for Nameless to suggest that he and Anwar go to see the wise man? Why or why not?

The wise man says:

"I know many things. And, besides, I was expecting you..."

Why do you think the wise man greeted the boys this way? Why do you think the wise man chose a name for Husni instead of letting him chose one for himself? Did you choose your name?

3. Generating Analogies:

Analogical questions allow a student to think about the story's characters, their thoughts and actions, and what happens to them "as if it were happening to me." In this way students can increase their understanding of the meanings contained in a Teaching-Story and how these

relate to themselves and their world. You may wish to have students form pairs to discuss the analogies they think of together and then have students share their discussions in the larger group. Using characters and items from the story, here are some suggestions that you might pick to encourage analogical thought in your students.

THE PARENTS - You might say to the students:

A wise man tells the parents that their son is very important and that they should not give him a name at this time. The parents took the wise man's advice and agreed to wait to name their son.

Can you think of other situations where you or someone else took another person's advice to wait to do something you really wanted to do right way? Why is it sometimes good to wait?

Have you ever really wanted to do something, but put off doing it at that moment because you realized that you needed to wait for a better time to do it?

THE WISE MAN – You might say to the students:

Sometimes we are able to listen to our own "wise man" that will help us make the best choices. Sometimes we are lucky enough to find someone who is wiser than we are at a particular time, and so he or she can help us in our effort to make the best choices for ourselves and to understand our world better.

How do you think people become wise?

Do you know any wise people? Why do you consider them to be wise?

BENAAM – You might say to the students:

Benaam knows where the wise man is and is able to ask him for help. Benaam is something like the part of us that knows how to reach the wisest part of ourselves?

Benaam doesn't go to see the wise man until his friend Anwar tells him he wants to learn how to pass on a dream from one person to another. This is an example of how people want to help someone else and ending up helping themselves.

Can you think of examples of people who helped others and also helped themselves?

Also, we need others to help motivate us to find what we truly want. Can you think of something you know about that demonstrates this idea?

HUSNI – You might say to the students:

Benaam is given the new Name of Husni and he gets rid of an old dream and gets a new wonderful one. His dissatisfaction is gone, and he sees a new direction for himself.

Do you think sometimes we need to change our dreams for ourselves? Why or why not?

ANWAR – You might say to the students:

Anwar goes to the wise man with Benaam and as soon as Husni has a name, Anwar cries out: "But I want the dream Husni promised me!"

Just like Anwar, we sometimes want something that is not the best thing for us. Did Anwar really need Husni's old dream? What did the wise man let him choose in the end?

ASSESSMENT: Generating Reflection & Analogical Thinking

Levels of mastery 1-4

Level 1: Student is unable to connect anything in the story to anything in his/her own life, even as a one-to-one relationship.

Level 2: Student is able to make a one-to-one connection between objects or characters in the story and objects or characters in his/her own life but is unable to make inferences (e.g., he/she read a story about a fairy once).

Level 3: Student is able to make a one-to-one connection in the story to events in his/her life that demonstrates an event in the story.

Level 4: Student is able to make an analogical connection to something in his/her life and can elaborate on these feelings.

"... Even young children without any formal training have a natural capacity to reason by analogy. By allowing students to juxtapose situations, characters and events that occur in Teaching-Stories with those that occur in their own lives, we enhance their ability to understand, through analogy, aspects of their lives that may otherwise perplex or confuse them. When children start to think in this way with these stories, they begin to experience social and emotional growth."

-Keith J. Holyoak, Paul Thagard, Mental Leaps: Analogy in Creative Thought, MIT Press, 1996.

B. Personal Response Journal

Good readers engage with what they are reading by thinking about the events, asking questions, reflecting and readjusting their thinking as they read. Keeping a personal response journal enables students to maintain a record of their responses and thoughts over time. This practice helps them develop good reading and thinking skills.

SKILLS AND STRATEGIES

<u>Personal Response</u>

- discussion
 - writing

Comprehension

- determining important ideas
 - making inferences
 - synthesizing

Thinking

reflection

This sequence of activities should take about 30-40 minutes of uninterrupted time.

TO PREPARE FOR THE LESSON

- If the students have made their own Personal Response books, have them use these books for this activity. If they have not made them and they wish to, refer to those instructions and proceed with this activity after this is completed. Or, they may want to use spiral-bound notebooks, composition books or a section in their notebooks identified as "Personal Response Journal."
- If they want to add more words to their ABC Word List, make sure they have them available.
- Make sure students have their own copies of *The Boy Without a Name*.
- Read over the lesson plans so that you are familiar with the steps to follow.

Reading with a Personal Response Journal

1. Tell students that they will be reading the story on their own and writing their thoughts in a personal response journal as they read.

- **2**. Have students use the books they created or give out composition books, or have students create a section in their notebooks where they will keep their personal response journals.
- **3**. On a flip chart or on the board, draw a line down the center of the page, dividing it in half. On the left side write "Notes from the Story" and on the right side write "My Thoughts."
- **4.** Give students an example of how they might write in their personal response journals. A few ideas you can share are on the next page.
- **5**. Let students know that this personal response journal is only for them. Tell students that you will be asking for *volunteers* to share some of their writing, but it is not mandatory.
- **6**. Ask students to look in the story book and find a suggestion for an entry they might want to write in their personal response journal. Make sure they all understand that they will be writing the notes from the story on one side and adding their personal response to that entry on the other side.
- **7**. Once the students understand how to proceed, have them write at least one entry in their journals and then ask volunteers to share their examples.

ASSESSMENT: Synthesizing

Levels of mastery 1-4

Level 1: Student is unable to make any connections to personal experience or prior knowledge.

Level 2: Student is able to make surface connections to personal experience.

Level 3: Student is able to make logical and/or empathetic connections to personal experience.

Level 4: Student is able to make multiple and insightful connections to personal experience and/or other subjects and other people's experiences.

EXAMPLE OF PERSONAL RESPONSE JOURNAL

Notes from	My Thoughts		
The Boy Without a Name	Sometimes I feel like I		
Nameless wanted a name	cannot do something		
very badly, so he went to his	by myself, that I need		
friend to ask if the friend	someone else to help me,		
had a name he could have.	just like Nameless thought		
And then Anwar got him	he needed his friend's help.		
thinking about the dream he	Then I start talking with		
wanted, and then Nameless	a friend and the solution		
thought of the wise man.	pops into my mind.		
	I know someone líke Anwar		
	who is very impatient and		
Anwar got impatient after	wants what he wants right		
Husní got hís name and	away. I thínk my fríend		
the wise man said "Patience,	should be more like		
	Nameless, and wait for the		
	right time.		

C. What's in a Name?

1. Discuss the significance of first names with your students and use some of the questions below to guide class discussions. If you can't answer some of them satisfactorily, suggest that students gather more information at home or on the internet.

What would it feel like to have no name? Why do you need a name?

What do you think are the significance of names? Why do you think this?

How do people get their names?

Why were you given your first name? Is this name important to you? Why or Why not?

Do you like your name? Why or why not?

Does your name mean anything? How might you find out what your name means? (The website, www.behindthename.com, is a good place to start.)

Do you think your name suits you? Why do you think so?

Does what we are named affect our life? Why do you think so?

If you could change your name, to what would you change it?

If your name does not mean anything, Would you like your name to mean anything? Why or why not? If you could choose a meaning for your name, what would it be?

If you could change your name to any name, would you? If so, to what would you change it?

2. Visual Images: As you discuss these questions with students, you may want to have students also respond with visual images. For example, students might be encouraged to create paintings, drawings, or collages featuring their first names represented in interesting ways that are suggestive of their personality as well as their name (see also sculpture suggestion in step **3**). Some of the discussions on the questions may lead to more abstract expression in their art and others to more realistic ones.

3. Name Sculptures:

What you'll need: Sculpting clay (see recipe below); plastic knives for carving; rolling pins or plastic drinking bottles filled with ice water; wax paper; tempera paints and paint brushes for painting sculptures.

- **a.** Prepare enough clay for each student to have at least one-half cup. If you want the students to paint their sculpture, do not add food coloring.
- **b.** Place a ball of clay on a piece of wax paper and have the students place another piece of wax paper over their clay and use rolling pins or plastic drinking bottles filled with ice water to roll the clay to ¼" thick and about 6" in length, and 2" height. The clay piece should be long enough for the student to carve his/her first name. (See illustrations below.)

- **c.** Have the students lightly write their first names in the clay. Tell them to space the letters out so that they can carve out the letters.
- **d**. Using a plastic knife, have them carefully sculpt out the clay along the letters of their name.

- **e**. Once their name is carved out, allow the clay to dry overnight before painting. Once dried, have the students paint the carved letters with different colors using tempura or poster paint. They also may want to paint other designs on their sculptures which help to show their personality. **Hint:** To help fix the paint, you may want to spray a fixative, such as a little hairspray, over the painted surface.
- **f**. These clay plaques can be used as paperweights and for other decorative uses.

Traditional Play Dough

1 cup flour

1 cup warm water

2 teaspoons cream of tartar

1 teaspoon oil

1/4 cup salt

To make colored play dough, add colored gelatin.

V. RESPONDING TO THE STORY

A. Determining Important Idea.

When students learn to determine important ideas, they deepen their comprehension and develop good reading skills. These skills will transfer to other reading activities in which they engage. With this reading you will help them focus on determining the important ideas in the story.

The Boy Without a Name is a Teaching-Story that helps us think about aspects of our human nature It will encourage them to consider problems in their own lives as challenges to be overcome and as opportunities for growth, rather than as obstacles.

Remember that for this activity students should freely think and express their thoughts. To do this, they need to feel psychologically safe and know that all their responses will be accepted and that there are no "correct" answers.

SKILLS AND STRATEGIES

Thinking

- compare and contrast
 - Comprehension
- determining important ideas

This sequence of activities should take about 30-40 minutes of uninterrupted time.

TO PREPARE FOR THE LESSON

- Each student will need a copy of The Boy Without a Name.
- If students are listening to the CD, make sure it is available and the CD player is working.
- Have available chart paper or the board for the class discussion.
- Make sure the students have their Personal Response Journals.

1. What we are given, what we lack, and what we can do about it

This guided writing activity can encourage your students to think about the idea that we are given some things and choose or provide other things for ourselves.

You might say something like:

This story is about a boy who lacks something important that everyone else is given at birth and takes for granted.

We are not told in the story whether the boy knows why he has not been given a name. He may or he may not know why himself. We know that it is not his fault that he lacks a name, and although there may be a very good reason for him not to have been given one, he still feels the lack of it. It takes patience and resolve for him finally to get his name.

I would like you to think about what we can learn from this aspect of the story. Write your ideas down in your Personal Journals. You can share some of them with the class if you wish, but only if you wish.

First, create three columns in your journal. Label them "What I Have Been Given," "What I Want," and "What I can Do About It." (You may want to write these labels on the board or chart paper for your students to copy.)

Do you ever think about what you have that you did not choose for yourself? In the first column, make a list of things that you have that you did not choose for yourself.

Next, do you sometimes feel that you lack something important in yourself that others appear to have? In the second column, make a list of things that you lack but that you would like to have.

Next, what can you do about the things you lack and also want? How might you go about getting them? In the third column, jot down what steps you might take.

Now, put a star next to any of the things that will take patience and resolve to achieve.

Now think: How would succeeding at this change you?

Might accomplishing this goal change you so that you might become "very important"?

2. OUR DREAMS AND DESIRES

a. To initiate the discussion about dreams, you may say:

One of the things this Teaching-Story is about is the dreams the boys have.

I'm sure you have noticed that we use the word "dream" for both what we experience when asleep and the wishes or desires we have and want for our lives. This second type of dream can be called a "waking dream," and can motivate us to do things in a way that can make these dreams come true.

b. Have students write down in their journal at least one "waking" dream that they have and ask them if anyone wishes to share that dream with the class. Make certain that students know they will not be asked to respond if they do not wish to.

c. Then ask:

Now think about what you need to do to make your waking dream come true. As you think about this, consider the kinds of qualities it will take for you to make your dream come true. For example, perhaps you'll need patience because you know it will take you many years of preparation to make your dream a reality.

Let's make a list together of some of the qualities we might need to help our "dreams" (desires) come true.

d. With the students, make a list of the qualities needed on chart paper or the board. Besides patience, you may also elicit these kinds of qualities from students:

determination, perseverance, fortitude, imagination, optimism, self-confidence, conviction

e. Then tell your students:

You may want to keep referring to the waking dreams you have written in your journal. If you keep this journal and look at it later, you may find that you need to change a dream (just like Husni did in the story) and think about why you have to change it. Or you might find that you still have the same dreams and are working hard to fulfill them.

f. Ask students to respond to these questions, if they want:

Are there any waking dreams you would like to throw away?

Are there any waking dreams you would like to trade?

Tell the students they will soon be making a "dream box" in which they will be placing some writings and drawings about their own special desires. (Tell them that what they put in their boxes is private, and they need only share it with others if they wish to.)

ASSESSMENT: Determining Important Ideas

Levels of mastery 1-4

Level 1: Student is unable to determine any important ideas expressed in the story when asked to do so and sees no significance or relevance to his/her own life.

Level 2: Student is able to determine one or two important ideas but is unable to infer any relevance or significance.

Level 3: Student is able to determine a number of important ideas and is able to infer relevance and significance (e.g., the student says that the story shows that Nameless had to wait to get a name).

Level 4: Student is able to determine important ideas with a depth of insight and to infer relevance and significance to his/her own life. (For example, the student says that the story shows that it is possible to achieve one's goals in life.)

B. Making "Dream Boxes"

TO PREPARE FOR THE LESSON

- Go over the instructions for "Dream Boxes" included in this guide, and make sure you understand them. You may want to assemble one box ahead of time. If you feel your students will not be able to assemble their own boxes, make enough for all students.
- If you do not want to make the template boxes in class, have the students bring in small boxes with lids (such as shoe boxes, gift boxes) over a period of a week. Make sure there are two boxes for each student. If you do this, make sure you have enough art paper for covering the boxes for decorating.
- Have slips of paper or small note cards for students to write on.
- Gather together materials for decorating the boxes: markers, water paint, puffy paint, brushes, glue, glitter, buttons, sequins, beads, ribbon, yarn, scraps of fabric, pieces of colored paper or tissue paper, fasteners (if using), scissors for each box to be made, cellophane tape, paperclips, and newspapers to cover desks and tabletops.
- You may wish to read over the lesson to become familiar with all of the steps.

A template and instructions for making the box are included in this guide. Make sure you have all the materials needed and ready for the students before starting the lesson.

Making the Dream Boxes

1. Students will be assembling two boxes, one for "Waking Dreams" and one for "Discarded Dreams." Give each student 2 templates that you have already cut, or give them the cardstock and have them trace the template onto it and cut it out. Make sure each student gets a printout of the instructions and demonstrate by assembling your own with them. You will need: scissors, glue, cellophane tape, paperclips for tacking down the tabs. If they are going to make the "fancy fastener," they may need assistance inserting the fasteners.

2. Allow the boxes to dry completely before use.

Writing or Drawing "Waking Dreams" and "Discarded Dreams"

3. While the boxes are drying, have the students return to their desks, and give them each several pieces of paper or small note cards. Tell them they are to think of waking dreams they want to keep and those they want to get rid of. Have them write each dream on a piece of paper and on the reverse side of the paper write why they want to keep the dream or why they want to throw it away. They may want to draw their dreams on the papers and only write their reasons. They may want to refer to their journal writings.

- **4.** When they have made a few of these cards, have them place their writings/ drawings inside their appropriate "dream boxes" (they may need to fold the cards).
- **5**. Have volunteers show the class their boxes and discuss how they chose to decorate their boxes and why. Also have volunteers share with the class one or two of their dreams and talk about how they will try to make that dream come true or why they want to discard the dream. Remind them that their dreams inside the boxes are personal and should only be shared voluntarily.
- **6.** Send the boxes home with the students and have them continue to put "waking dreams" in them. They may want to bring them to school for a "parent night" event.

Writing About Dreams from the Story

- **7.** Have the students choose one of the following and write a paragraph or two, using their imagination:
 - ❖ Describe the dream that Nameless was going to give Anwar, but that eventually went into the wise man's box of dreams that nobody wanted.
 - ❖ Describe what Husni's dream was and how he went about making it come true.
 - ❖ Describe what Anwar's dream was and how he helped make it come true.
 - ❖ Compare and contrast Husni's dream with Anwar's dream.
 - Compare one of your dreams with Husni's or Anwar's.

C. Dialogue Writing

PATIENCE VS. IMPATIENCE

Students can refine their thinking and comprehension of the story with this activity. This activity will encourage students to write creatively and to express their understanding of this aspect of the story and what it means to them.

SKILLS AND STRATEGIES

<u>Personal Response</u>

- retelling
 - **Thinking**
- reflection

Comprehension

- synthesizing
- determining important ideas

This sequence of activities should take about 30-40 minutes of uninterrupted time.

TO PREPARE FOR THE LESSON

- Have paper and a variety of writing and drawing implements such as pens, markers, and colored pencils available and well placed for students to use.
- Have the student's and the class ABC Word Lists and list of observations available for reference.
- Have a copy of the book *The Boy Without a Name* for each student or groups of students.
- If students are unfamiliar with writing dialogue, you may want to have some examples on chart paper or the board.
- If you are going to use the books created earlier, remind students who kept their books
 that they will need to bring those books to class if they wish to use them for this
 activity.
- You may wish to read through these directions so that you are familiar with the steps to follow.
- **1.** The necessity for patience is emphasized in this story. Discuss different examples of impatient and patient behavior that we find in it. The students may want to refer to the book. Here are some examples:
- ❖ Benaam is a baby, and when he grows up, he is patient no longer and wants to find his own name.
- ❖ Benaam's parents have patience. They obey the wise man and don't give their son a name because they believe that he is a very, very important boy and that the wise man will give him a name as well as something marvelous.
- ❖ The wise man has been very patient, waiting for Benaam to come for his name ever since he spoke with the parents at the birth of their son.
- ❖ Anwar asks the wise man to help him get the dream Husni doesn't want. The wise man tells Anwar to be patient. He doesn't give Anwar the dream that Husni doesn't want, but, instead, allows both boys to pick from a box of marvelous ones.
- **2.** Discuss what happens as a result of Benaam's (Nameless) not receiving a name as soon as he was born. On chart paper, list some of the students' ideas. Some examples are:
- Husni learns to be patient.
- ❖ The boys learn that there is sometimes a right time to do or have things, even if we want them immediately. (The boys have to wait until the time is right perhaps until they are old enough to visit the wise man on their own.)
- ❖ Benaam has to find the wise man because only he can give him a name.
- Benaam and Anwar help each other.

- ❖ The wise man is able to give them both what they wanted.
- ❖ Both boys benefit in a permanent and unexpected way − they have wonderful dreams from then on.
- **3**. You might tell students that sometimes patience is important and sometimes it's best to act immediately. They may want to refer to their writings in their Personal Response Journal for some ideas on times when it is better to act immediately and not use patience (e.g., during a fire drill when it's important to get to safety; taking a sharp pencil away from your baby brother).

WRITING DIALOGUE

4. Tell the students that you would like them to remember or imagine a situation in which they set out to achieve something, or get something done. Have them decide whether they achieved this with patience or impatience. Tell them that they are going to be writing a dialogue to show what happened. You may want to share some examples of your own to be certain that students understand the concepts of being patient versus being impatient.

Becoming a Doctor

Partner A: "What is your career goal?"

Partner B: "I wish to be a doctor."

Partner A: "How will you go about achieving this goal?"

Partner B: "I know that I will need to study many subjects, such as physiology, anatomy, chemistry and biology in order to be a good doctor. I will need to study mathematics. While math is not my favorite subject, I know I will need math in order to take the entrance exam for medical school. And there are probably lots of things I don't know that I will need to learn."

Partner A: "Are you sure that you want this goal since it will take a long time to achieve?"

Partner B: "I will read books about doctors and talk to my doctor to find out what other subjects or activities I should know about which will help me achieve my goal. Like Nameless in the story Boy Without a Name, I'll learn what I need to do and patiently work toward what I want."

Becoming a Dancer

Partner A: "What career would you like to follow if you had your dream and how will you prepare for it?"

Partner B: "I would love to become a dancer, so I will continue to take dance classes and practice on my own. I must also take good care of my body, eating well and getting regular relaxation and rest. There are probably lots of things I don't even know that I need to know or do, so I will read as many books and I can about the

lives of dancers, and I will talk to my dance teacher and ask him what are all the important things I need to do in order to achieve my goal."

- Partner A: "That seems too much to do to me."
- **Partner B:** "Remember when the wise man told the parents of the boy without a name that he would someday give the boy a name and also give him something marvelous? If Nameless had not been patient while growing up, he may have missed the chance to get not only his name, but also a wonderful dream."
- **5**. Have students discuss their ideas with a partner. Then, if they wish, have students share their examples with the class.
- **6**. In their own words, have them write the dialogues using the characters involved.
- **7.** Students may want to copy their written dialogues in the books they created, or you might gather them into a Class Book and keep it in the class library for students to read again. Students may also want to illustrate their writing so that there is both text and images, or they can create a comic strip with dialogue.
- **8.** Students may wish to share their dialogues with the class, or they may want to act out their written dialogue as skits. If students choose to create and perform skits, you may wish to videotape the skits for playback and discussion in class.
- **9**. Collect the copies of *The Boy Without a Name* and keep them in the classroom until the rest of the lessons are completed. Remind the students, they will be taking them home very soon.

ASSESSMENT: Dialogue Writing (reflecting, synthesizing, determining important ideas)

Levels of mastery 1-4

Level 1: Student is unable to determine any important ideas expressed in the story and cannot synthesize dialogue.

Level 2: Student is able to determine one or two important ideas but is unable to infer relevance and significance.

Level 3: Student is able to determine a number of important ideas and is able to infer relevance and significance. (For example, the student says that the story contrasts using patience versus impatience as a way of solving a problem and says this makes him/her think about using patience instead of impatience to solve issues in his/her own life.)

Level 4: Student is able to determine important ideas with a depth of insight and to infer relevance and significance to his/her own life. (For example, the student says that the story helps him/her examine the difference in outcome and quality of life when one has patience in approaching problems and how empathy develops as a result of being patient. This is significant to him/her because it initiates thinking about how he/she sometimes reacts by using impatience in a situation instead of thinking how to be patient and think of others besides himself.)

D. Retelling with Puppets

Creating and working with puppets allow students to learn how to express themselves through a medium that both entertains and informs simultaneously. Students will create a simple hand puppet out of a paper bag and use the puppets to retell the story. Using puppets often helps students who are otherwise shy to express themselves in a non-threatening way. Students also learn cooperative interaction.

SKILLS AND STRATEGIES <u>Personal Response</u> • retelling

This sequence of activities should take about 40-50 minutes of uninterrupted time.

TO PREPARE FOR THE LESSON

- Collect all of the materials you will need for the paper bag puppet. Have materials
 ready for distribution. Have materials well organized and easily accessible to
 students. (A set of instructions is included in these lesson plans. You may want to
 make photocopies of these instructions and have them available at the work stations
 so students can refer to them.)
- Look over the directions for making a paper bag puppet. You may wish to try one on your own to show the students. (If you want to have the students use finger-puppets or felt-board characters, please review the instructions included in this guide and prepare ahead of time.)
- Materials you will need for the paper bag puppets: lunch-size paper bags, colored pencils, crayons, markers, glue, paste spreader, disposable containers (for the glue and paste spreader), colored construction paper or cardstock, tape, scissors, newsprint or plastic sheeting to cover desks or tables. Optional: tissue paper, wax paper, pipe cleaners, foil, beads, buttons, fabric scraps, yarn, plastic eyes, etc.
- Have the book available to students for reference.

Tell students that they are going to make a paper bag puppet of one of the characters in the story and later they will use the puppets to retell the story of the boy without a name who was patient and finally earned his name.

1. Discuss the characters from the story with your students. Talk about the parents, Benaam/Husni, Anwar, and the wise man. You might refer to descriptive words they have previously identified to describe these characters, and encourage them to come up with others. Tell the students that getting to know the characters will help them create puppets that look like the characters and help them to act out their personalities and voices as they retell the story using the puppets they make.

- **2.** Remind the students that they are going to make a paper bag puppet of one of the characters in the story and later they will use them to retell the story. Using the instructions provided in this guide, demonstrate the drawing, cutting and assembly of the puppets to the students, as you are making one with them. Some students will make Nameless, while others will make another character, so adapt your instructions accordingly.
- **3**. Distribute a "lunch-size" paper bag, construction paper or other sturdy paper for each puppet to be made and place all the art materials within reach. Have students write their names on the back of their bags before assembly.
- **4.** Read the step-by-step directions or demonstrate the steps as needed, so students can follow along. (Having the book and several copies of the printed instructions nearby may be helpful for the students.)
- **5**. Allow the paper bag puppets to dry completely before use.
- **6.** Have students clean up and replace materials in storage.
- **7**. When students have completed their puppets, let them gather in groups of 2-3 and act out the story. If some students have made Nameless and others have made other characters, group the characters together for retelling.
- **8.** You may also have students use the felt-board characters or finger puppets to retell the story. Students may want to use the puppets to act out their own written dialogues. (See the instructions included in this guide for making finger puppets and felt-board characters.)

Students may take their puppets home after they have had their puppet shows. However, you may want to keep the puppets in the classroom where students can use them for skits and retelling.

ASSESSMENT: Retelling

Levels of mastery 1-4

Level 1: Student is unable to retell the entire story and remembers only one or two events, not the key events, and not in the correct order.

Level 2: Student is able to recall and retell when assisted by clues, such as illustrations in the book.

Level 3: Student is able to retell the key events (beginning, middle, end) in the correct order, leaving out only minor details.

Level 4: Student is able to retell the entire story, in the correct order, including all of the main events and the important details.

E. Writing & Retelling

Students can refine their comprehension of the story by writing about it in different ways. Students who wish to can read the whole story independently or by listening to the CD. This activity may be used as a part of a writing or poetry lesson in which the teacher familiarizes the students with different types of poems and literary techniques, encouraging their creative, artistic selves. They may also write a poem or song about their lives that relates to the story analogically. The students may wish to put their writing in the books that they created. The students' writings may also be read as a part of the Readers' Theater, just before the intermission, or at the end of the performance, or during a "parent night" at the school.

SKILLS AND STRATEGIES

Personal Response

• retelling

Comprehension

- synthesizing
 - **Thinking**
- reflection

This sequence of activities should take about 30-40 minutes of uninterrupted time.

TO PREPARE FOR THE LESSON

- Familiarize yourself with the different types of poetry and literary techniques that you wish to teach.
- Have paper, staplers, and coloring materials for making simple picture books available.
- If you are going to use the books created earlier, remind students who kept their books that they will need to bring those books to class if they wish to use them for this activity.
- Have a copy of the book available to hand out to each student.
- **1**. Teach the students about different types of poems and literary techniques which they can use in their writing, such as:

POEM:

<u>Ballad</u>: A ballad is like a folk tale or legend meant to be sung. The narrator tells a story, usually beginning with an exciting episode, and without self-reference. A ballad often has repeated refrain.

Epic: An epic is a long, serious poem, usually telling a hero's story.

<u>Haiku</u>: A haiku is a Japanese poem usually consisting of 3 unrhymed lines with 5, 7, and 5 syllables. A haiku usually refers to nature or a season.

<u>Free verse</u>: Free verse is a fluid form of poetry free of traditional rules of meter, rhyme, or versification.

LITERARY TECHNIQUES:

<u>Metaphor</u>: a metaphor expresses one concept in terms of another, using the verb "to be" (e.g., "You are a bud that sprouts in the night").

<u>Onomatopoeia:</u> using words that imitate the sound associated with the thing or action, such as "hiss" and "buzz."

<u>Alliteration</u>: repetition of initial consonants in neighboring words such as: "In the end, the eagle eluded the elderly woman by exiting."

<u>Simile</u>: a simile compares two things using "like" or "as" (e.g., "He is like wind on a moonless night").

- **2.** Have the students write a story, poem or song that is inspired by the story, refers to the story, or has something to do with the story. Make sure each student has access to the book for referral.
- **3**. Or, if the students choose to work with prose or poetry, rap, or anything else, suggest that they try rewriting the story in their own words. You may suggest that they rewrite the story from the point of view of one of the characters. If the students would like some ideas, you might say:

Imagine yourself as Anwar, the friend of Benaam, and write the story as a poem from his perspective. Or...

Imagine you are the wise man. Write the story as a poem from his perspective.

4. Alternately, ask the student to rewrite the story in their own words, in modern times. You might say to the students:

Can you think of a real-life situation in which you or somebody you know wanted something but they needed to be patient and wait a long time to get it?

Is there something that you want badly and know that you have to wait for it? You might like to write a poem about that.

- **5**. Or, they might write a poem or story about what happens to Husni now that he has a name. What makes him so important?
- **6.** Hand out 10 15 pieces of blank or colored paper to each student. Have students turn their creative writing into an illustrated book. The writing may also be written and illustrated as comic book. Have the students fold all of the papers in half together and staple them down the middle to create a booklet in which they will write and illustrate their stories. Students may also put their writing in their personal response journals.

6. Those who choose to do so can read their writings aloud to the class. You may want to gather these into a Class Book for the classroom library until the end of these lessons, or make copies for displaying or reading at a "parent night." The writings can be incorporated into and performed during the Reader's Theater.

ASSESSMENT: Retelling

Levels of mastery 1-4

Level 1: Student is unable to retell the story, even with teacher assistance. Writing is lifeless.

Level 2: Student is able to retell elements of the story using poetry but the organization and structure are lacking and language is sometimes unimaginative; finds it difficult to express analogical use of the original story.

Level 3: Student can retell the story using poetry; can express the analogical use of the original story. Writing is appropriate and words are creative.

Level 4: Student uses exceptionally expressive language and form to retell the story using poetry; can express the analogical use of the original story. Writer may use humor, emotion, suspense or liveliness.

F. Creating Thoughtshots

Some students may wish to further develop their writing skills and learn to use their thoughts, reflections, feelings, and opinions to improve the quality of their writing.

"Thoughtshots" allow the writer to go into his/her own mind and reflect on his/her writing and the event being written about. The student learns to understand the writer's role better and how the writer uses language to give the reader a reason to be interested in the writing.

SKILLS AND STRATEGIES

Personal Response

retelling

Comprehension

- synthesizing
- determining important ideas
 - making inferences
 - visualizing
 - **Thinking**
 - reflecting

This sequence of activities should take about 30-40 minutes of uninterrupted time.

TO PREPARE FOR THE LESSON

- You may wish to write a Thoughtshot to share with students. (One is provided for the story at the end of this lesson.)
- Students may wish to use their journals they created for this writing. Remind those who took them home to bring them to class.

Tell students that they are going to be writing a "Thoughtshot." Explain to them that a Thoughtshot is taken from 2 words: "thought" and "snapshot." It is something writers need to do in order to go deeper into themselves as writers as well as getting inside the mind of the characters they write about. Thoughtshots explore the thoughts and feelings of the characters. Here are the steps for this activity:

- **1.** Using a sample Thoughtshot you create or the one below, have a discussion about the following elements:
 - What is the context of this event? Where does it take place?
 - How did this event influence/affect the character's life?
 - How did the character feel?
 - What was the character thinking?
 - What changes have occurred at this moment?
 - What do you think the character realizes now that he/she is looking back?
 - What did the character learn or gain from this moment/event/experience?

Types of Thoughtshots

Here are some examples of Thoughtshot starters using *The Boy Without a Name*:

Flashback (Reflecting on something from the past)

The mother remembers when the wise man came to see her and her husband making the strange request that they not name their son. He said that he would give the boy something marvelous when he gave the boy a name. The mother wondered if she had done the right thing. She had really wanted to give her son a name so that she would be able to call him home and to dinner. But something in the wise man's voice reassured her, and she felt that she did the right thing. Sometimes she wondered if Nameless would find the wise man or if the wise man would come to Nameless when the time was right. He hadn't said. How would her son get a name? Had she done the right thing? She hoped she had....

Or:

Anwar remembered how his friend came to him asking him for his name. But he only had one name, so he couldn't help his friend. Anwar had wondered then why his friend didn't really have a name. Everyone called him Nameless, but that wasn't a

name at all. He felt awkward asking Nameless why he had no name. He recalled thinking, if he did give his friend *his* name, he should at least get something in return and Nameless didn't appear to have anything to give. But then, he surprised Anwar by offering him a dream. The problem, however, was how to pass on a dream from one person to another ...

Flash-ahead (Projecting ideas about something that might happen in the future)

Benaam imagined what it would be like to have a name of his own. He thought of his friends calling to him, of being able to write his name on his papers at school ...

Or:

The wise man thought about that day when the two boys would come to his door, one in search of a name and one in search of a dream. He imagined how he would be able to help both of them solve their problems and give them what they wanted ...

Internal Dialogue (Discussing with yourself about what is going on)

Benaam/Nameless decides that he is going to see his friend Anwar and ask him if he has a name to give him.

"Now, I wonder if Anwar will be able to help me. I know it may seem like a very strange thing to ask for, but I really, really want a name. Maybe, just maybe, Anwar has an extra name he can give me. What are friends for, if not to help you solve problems that you have?"

See also an example of Thoughtshot for *The Boy Without a Name* at the end of this lesson.

- **2.** Before writing, have students and their partners discuss what they are going to write about.
- **3**. Have the students write a full-page Thoughtshot.
- **4.** Have students exchange their writing with their partners and have partners offer suggestions to clarify their writing. Students can revise their work based on their partner's suggestions.
- **5**. If time allows, have students volunteer to read their writing aloud.
- **6**. You may want to gather these into a Class Book for the classroom library until the end of these lessons or make copies for display or reading at a "parent night."

ASSESSMENT: More Descriptive Writing (Visualizing and reflecting)

Levels of mastery 1-4

Level 1: Student is unable to demonstrate an ability to use reflective language to write in order to communicate to the reader the feelings and thoughts of the character(s) and the events that are being written about.

Level 2: Student is able to demonstrate adequately some ability to use reflective language, use words of feeling, and give some essential details that allow the reader to experience the thoughts and feelings of the writer, thoughts of the character(s), and events that are being written about.

Level 3: Student is able to use reflective language and adequately gives many essential details that allow the reader to understand what was learned and to think about what might be the possible outcome of the situation being written about.

Level 4: Student is able to elaborate on his/her thoughts and reflections, giving an understanding of what was reflected on and learned from the situation that is being described. Student synthesizes key elements.

"Teaching-Stories are key to our basic cognitive development, leading the child and then the adult to learn more about what happens in the world and when and how events come together. It's as if we had the unassembled parts of a bicycle and knew, through analogy (the shapes perhaps), that there was a relationship between the handles and our hands, the pedals and our feet, and so on. We may even have an idea that these are a necessary part of what is known as 'a bike' and of 'riding a bike.' But to actually assemble the bike correctly, then to be able to ride it, when and where to ride it, etc., that requires contextual thinking: seeing each disparate part as part of a whole. That 'whole,' of course, expands with experience and understanding. A comprehensive study of Teaching-Stories provides what is, for all intents and purposes, a limitless whole...."

Robert Ornstein, Ph.D. From a lecture at Library of Congress on "Teaching-Stories and the Brain"

EXAMPLE OF THOUGHTSHOT WRITING

(It's a good idea to skip lines for easy editing)

THE BOY WITHOUT A NAME

(These thoughts occur to Husni as the wise man gives him his name.)

"Listen to all those names, what marvelous music they make, all singing their name out to each other! And one of them is going to be my very own name! Finally I will have a name of my own! I am so excited!

"And the writing, too, is all so beautiful! Many of the names are written in a different script than I am used to, and I can't read what they say, although I can hear quite clearly how to pronounce them: 'ARISU,' 'BEATRICE,' 'DANIEL,' 'FELICE,' 'JOLANTA,' 'CHAO,' 'FOLAMI' – these are all names I have never, ever heard before! Oh, wait a minute, I just heard ANWAR – that's my best friend's name and it means 'radiant' and it really does suit him – he certainly does have a sunny disposition!

"My name will be a very special one, and I will have to live up to it. My father's name is Amin and that means 'trustworthy,' and everyone in the town knows that this is true; they rely on my father one hundred percent. My mother's name is Firuza and that means 'successful.' She is a very successful doctor, and when people are sick, they come to her from miles around and she takes care of them. Both my parents honor the names they were given by their actions, and I will, too, when I am given mine.

"My parents explained to me long ago that my name will be very special, because the wise man told them that I was a very important boy and would have something really special to do with my life. But sometimes I didn't believe them because I felt so sorry for myself for not having a name of my own.

"The wise man is picking out a name for me right now. Oh, the name just jumped onto my hand, and it's running up my arm! It feels all tickly - it's going into my ear. I can hear it 'HUSNI'! Hooray!

"Husni, my name is Husni! And it is so special – it means 'excellence,' and I promise myself now to honor my name and always to strive for excellence in everything I do!"

G. Prepared Readers' Theater

Readers' Theater is an excellent way to allow students to learn the story, while promoting reading fluency. Students learn to read with expression and to practice such attributes of fluency as pausing, inflection and intonation. Having students take on character roles helps them understand literary elements, such as motivation and characterization. Readers' Theater scripts also promote listening skills as students follow along silently and listen for spoken cues. The scripts provide a great opportunity for student cooperation, and they are an enjoyable way to teach reading fluency.

SKILLS AND STRATEGIES Personal Response

• Readers' Theater

This sequence of activities should take about 30-40 minutes of uninterrupted time.

TO PREPARE FOR THE LESSON

- Make a copy of the script for each student. (A prepared script is available in this guide.)
- Gather props and costumes (see script). You can make this as elaborate or as simple as your students wish. (You may want to make a mural for the stage, see next section.)

Using the Script

- **1.** Use the script as you would any reading material and make sure students are familiar with any new words. Your students should be familiar with the story and the vocabulary before they engage in this activity.
- **2.** Tell students that different combinations of readers will take turns reading the "play."
- **3**. Assign the first set of readers and give them time to practice their roles and feel confident. Encourage them to read with expression.
- **4.** When the first readers are ready, you may want to have them stand where all students can see them. They may also read from their seats. Coach the readers to look up occasionally from their scripts and to make eye contact with the audience and other characters/readers as they read their lines.

5. Have other sets of readers take turns at reading the script.

Staging the Play

- 1. When students have become familiar with the script from several readings, you may want to create a full stage performance with costumes, props, and an audience of students, parents, and teachers. It is always a good idea to allow more rehearsal time when applying extra touches such as costumes or movement.
- **2.** In planning a performance, encourage students to think about the expressions and movements characters might make. For example, have students think about how people look and move when they are mad, happy, angry, or nervous.
- **3.** Have students practice facial expressions. If the character is Nameless, have the student practice looking like he/she is feeling incomplete, perhaps sad. If he/she is Anwar, have the student practice looking curious and concerned, or the wise man's looking "wise." You might have a mirror around for the students to practice making their "faces."
- **4**. Encourage them to create a "voice" for their character.
- **5**. Encourage students to "ham it up," playing creatively with the script to increase the entertainment value of the performance, keeping in mind that the most important purpose of Readers' Theater is to give students a chance to build their reading fluency.
- **6.** Establish a "stage" area in the classroom, moving and using tables, desks, and chairs and using the floor as needed and as safety allows.
- **7**. Use these simple tips to keep the performance smooth and entertaining:
 - Make sure readers are positioned within view of all members of the audience. It is
 important that the audience can hear lines and see movements and expressions. If
 you choose to place all the readers in front of the audience at once, it is helpful to
 have them stand in a semicircle so that each reader can be seen by all the other
 readers and by the audience.
 - Suggest where readers should stand so that they do not block the audience's view of other readers.
 - Remind students that they should be looking at, talking to, and reacting to the other readers/characters. However, the narrator may face and speak to the audience.
 - As an alternative to having all the readers stand together in the performance area, you may want to direct the performance by having readers enter and exit off to the side before and after delivering their lines. Having readers move in and out of the performance area will require more rehearsal time.

Extras: Costumes and Props

The face and head command the most attention, so a hat, mask, or makeup can work as an entire costume. Make sure that students obtain permission before borrowing items from other people. It's best not to let them cut, paint, or modify any clothing items unless you bring in articles of clothing specifically for that purpose.

Students will have their scripts in hand while performing. So, when choosing props, keep in mind that objects which require two hands may not be practical. Encourage students to use their imagination as they transform everyday objects into props.

See next section for an activity for making murals and other props for performances.

Home Book/CDs & Prepared Script

After all classroom performances have been completed, the students can take their books and CDs (if available) home if they have kept them at school. You may want to have them also take home a photocopy of the prepared drama script for performing at home. (See more home/school activities later in this guide.)

ASSESSMENT: Reading Skills for Readers' Theater

Levels of mastery 1-4

	Mark	Level 1	Level 2	Level 3	Level 4
		Proficiency is not yet developed.	Some proficiency is evident.	Adequate proficiency is evident.	Above-average proficiency is evident.
Comprehension / Interpretation:	_/4	Characters are interpreted literally, superficially, or inappropriately.	Characters are interpreted appropriately, but conventionally.	Characters are interpreted appropriately and imaginatively.	Characters are interpreted creatively. Reading style deepens characterization.
Thinking / Communication:	_/4	Makes no recommendations for improvements to the production while planning and rehearsing.	Makes some superficial recommendations for improvements to the production while planning and rehearsing.	Makes some thoughtful recommendations for improvements to the production while planning and rehearsing.	Consistently makes insightful recommendations for improvements to the production while planning and rehearsing.
Personal Response Speaking / Performance:	_/4	Speaks inaudibly and rarely in the voice of the character.	Speaks audibly, and inconsistently in the voice of the character.	Speaks clearly and somewhat expressively, consistently in the voice of the character.	Speaks very clearly and expressively, communicates credibly in the voice of the character.
Overall mark:					

H. Props for Readers' Theater - Murals

Students may wish to create a mural to use as a backdrop for their presentation of *The Boy Without a Name*. Having students make this an authentic project will make the Readers' Theater much more meaningful for them. They can invite other groups of students and their families to see the production. You can make this as elaborate or as simple as students wish.

This construction and painting of the mural should take 50 - 60 minutes of uninterrupted time. But it may take more than one day to complete to allow planning, sketching, and drying time.

TO PREPARE FOR THE LESSON

Materials:

water (washable) paints, paint brushes, foam brushes, sponges, plastic cups, paint cups & trays, art paper roll, pencils, chalk, rulers, stencils of various shapes or objects (flowers, etc.), finger paints

- Students may wish to use their art and other drawings from the lessons.
- Allow enough space in the room for several students to work at once on the large art roll (the mural can be as long as your "staging" area) that is taped to the wall (or laid out on the floor). Or, you may want to section off parts of the larger roll of art paper for several students or groups to work on at once. Or, cut sections of the paper roll for each student or group of students to work with at their desks or on the floor.
- Depending on your staging space, you may want to do several murals: One for the beginning scenes, one for the middle scenes, and one for the ending scenes. Allowing time during the performances for changing scenes is another possibility, but his takes coordination and rehearsal, so make sure your rehearsals include this activity.

THIS WILL TAKE MORE THAN ONE DAY TO COMPLETE. YOU MAY WISH TO DECIDE WHERE YOU ARE GOING TO KEEP THE MURAL SO THAT IT REMAINS INTACT AND CAN DRY BETWEEN CLASSES.

Here are some suggestions on making a mural:

- **1.** Discuss some possible ideas for the mural they will be creating. Here are some suggested ideas:
 - The illustrations in the book include many designs and patterns (tessellations); perhaps the students want to emphasize this element in the mural. They may want to use their own drawings for ideas for scenes of the story.

- The elements of the story take place in several locations. Perhaps the students want to create a mural that replicates all of the places in which the story occurs.
- **2.** You may want to organize students into three groups: one group for scenes or designs from the first part of the story; one for the middle part; and one for the ending of the story. Have the students or group of students brainstorm ideas for a mural.
- **3.** Once they have decided on the idea for the mural, students or groups of students can lightly sketch their designs onto drawing paper at their desks. Using these sketches, ask student or group to show their designs to the class and have the class discuss the elements and where to add them to the mural. Let this be a cooperative effort. Make sure that all students have a part in the design of the mural, whether it's sketching, painting, planning.
- **4.** Allow 4-6 students at a time to take turns coming to the mural to sketch the design and later to paint. Older students may direct younger students.
- **5**. Some painting can be done with sponges, others with paint brushes. Let the students make these choices. One idea using sponges is having students dip them into one or more colors of paint and press them onto the paper, creating a different texture than brushstrokes. Students may want to create "stencils" by drawing a design (such as a flower) on thick paper, cutting out the design, and use sponges to stencil the design onto the mural.
- **6**. Ten minutes before class ends, have students help with the clean up.

Clean-Up

- **1**. Assign students to wash brushes.
- **2.** Assign students to collect the newsprint or plastic sheeting (re-use if possible).
- **3**. Assign students to cover paints, rinse out plastic cups or trays.
- **4.** Store mural or individual pieces of it so that it will dry without disturbing other classroom activities.

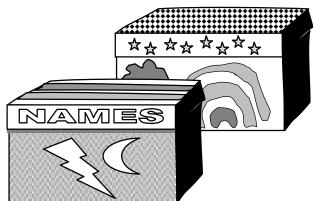

Other Ideas for Props

Some suggestions for making the set:

<u>Islamic Architecture</u>: Look up Islamic architecture on the internet. Go to your favorite search engine (such as Google.com) and type "Islamic architecture." If using Google, click on Google "Images" for some image examples. Supervision may be necessary for determining age-appropriate sites.

<u>Making Magic Boxes</u>: Students may want to make up "magic" boxes to contain names and dreams as well as other magic boxes. Over a week, have the students bring in small boxes with lids (such as shoe boxes, gift boxes). Have the students look at the pages where the wise man's house is depicted, and observe the decorated boxes in the illustrations.

Gather together materials for decorating the boxes: markers, water paint, puffy paint, brushes, glue, glitter, buttons, sequins, beads, ribbon, yarn, scraps of fabric, pieces of colored paper or tissue paper, scissors for each box to be made, cellophane tape, colored construction paper, and newspapers to cover desks and tabletops.

Making Dreams: Using construction paper or other sturdy stock, have students glue on strips of colored tissue paper. Have them add glitter, cotton balls, and other "dreamy" items they think of. Once their dream construction has been completed, punch a hole at the top and tie a string to it so that it can be pulled from a box or suspended above the stage as mobiles. (See also the paper bag puppets instructions included in this guide for other ideas on stick puppets.)

<u>Middle Eastern music</u>: Research Middle Eastern or Islamic music on the internet. You may wish to recite poetry or perform the songs you wrote about the story. Students may want to choreograph a dance or a mime performance using the *The Boy Without a Name* audio CD.

Follow-Up

There will be opportunities to recall and use the story with your students. For example, whenever you notice a student being impatient or trying to "run before he/she can walk," remind him/her about *The Boy Without a Name* and the value of listening to that part of them that tells them when to act and when to wait. You may want to say:

When I heard you just now, it reminded me of the story we read called The Boy Without a Name. Can you guess why I thought that?

Do you remember the story of the boy who had the patience to wait on getting a name until the time was right? Do you think that kind of patience would work in this situation right now? Why do you think so?

Go back to the story from time to time, weeks or months later, to see if your students can remember the story. Remember, these stories can be enjoyed and be useful for people of all ages.

VI. HOME/SCHOOL COMMUNICATION

It is difficult to maintain communication with families as students get older and become more independent. Yet, as teachers, we know the importance of home/school communication. The best way to ensure family involvement is to invite families to celebrate their children's accomplishments. Teachers should seek ways to send home information and activities that will get families involved in learning together. At the same time, encourage families to send to school examples of those family activities so classes can celebrate the learning that happens at home.

Here are some suggestions for activities that will expand home/school communication.

Drawing and Retelling: Have students take their drawings home to show their families. Suggest that they summarize the story and then explain the part of the story they have drawn in their pictures.

Share Writing and Drawing: Send home students' writing and drawing projects for sharing with families. You may want to make copies of drawing and writing projects in the class books before students take them home. You can share the class books during a "parent night."

Retelling as a Performance: When students have learned to retell the story smoothly and are comfortable telling it as a performance, have them tell the story at home to their families. If families are able to, suggest students get together outside of school to act out the story for their families. Or, if possible, invite family members to the school to see a performance of the play.

Reading to Younger Children: Encourage students to read the story to younger children at home or at school and discuss it with them. This will stimulate their own comprehension and analogical thinking. They may want to use the puppets while reading the story to younger children.

Host a Parent/Family Night: Here are some suggested activities for this event:

1. Show "The Magic of Reading" DVD and discuss its contents with the parents. Find out what was new for them, what they liked, what they would like clarified.

- **2.** If not already given out, hand out *The Boy Without a Name* book and/or CDs, if available, to the students.
- **3**. Discuss with parents the importance of their completing and returning the questionnaires, if these are available.
- **4.** Read the story aloud to parents and students.
- **5**. Have students read their poetry or dialogues to families from the Class Books or from the books they created.
- **6.** Display students' artwork and created books, Class Books and students' writing at this event.
- **Host a "Pajama Party":** You might want to host a "Pajama Party," where students and families come back to school in comfortable, loose clothing, even pajamas for the kids. Do some of the activities suggested in the "parent night" section above.

Family/Student Reading and Art Activity: Have parents/caregivers and other family members read the story together with the students, then draw something that represents the story of *The Boy Without a Name* and that they'd like to share with others. As an example, draw about feeling impatient for something to happen and then draw things they did to became patient; and so on. Ask the students to voluntarily return the pictures for discussion and display. Invite family members to come in and talk about their drawings.

Parent Visitor/Speaker: Invite parents or other adults in the home to come to school and share other stories that remind them of this story or tell about reaching a goal where they needed some qualities such as patience and perseverance. Or perhaps they may want to talk about how their impatience in reaching a goal may have caused problems and what they did about it.

Reading Club: Have students start a reading club. This can be done after school or before school or during lunch. Here are some suggestions for how to start a reading club:

- **1**. Ask students to volunteer to come once a week for a reading club.
- **2.** For the first several books, you may wish to pick the books and, after the students are more comfortable with the process, you can have them make suggestions for books to read.
- **3.** Choose three or four different titles, and, at the first session, give the students a short summary of what each book is about. Then have them vote on which book they want to read.
- **4.** Assign a section of the book at first so that students will have a benchmark for how much to read before the first discussion.
- **5.** You can assign roles for the club members. (Model each of these roles when you begin.)

- **6.** Have one person make a list of new vocabulary and discuss the connotations and denotations of the words.
- **7**. Have one person come up with five questions about the part of the story to discuss.
- **8**. Have another person come up with a favorite section to read aloud when you get back together.
- **9**. Have another person be the moderator at the book club meeting.
- **10**. Have someone else make literature-to-literature comparisons between this book and something else she or he has read.
- **11**. Once students are comfortable with the process they can meet on their own or you may want to ask a parent volunteer or senior citizen to meet with the group.
- **12**. You can also talk to the librarian at your school or public library if you need help with how to begin a reading club.

Home Interviews

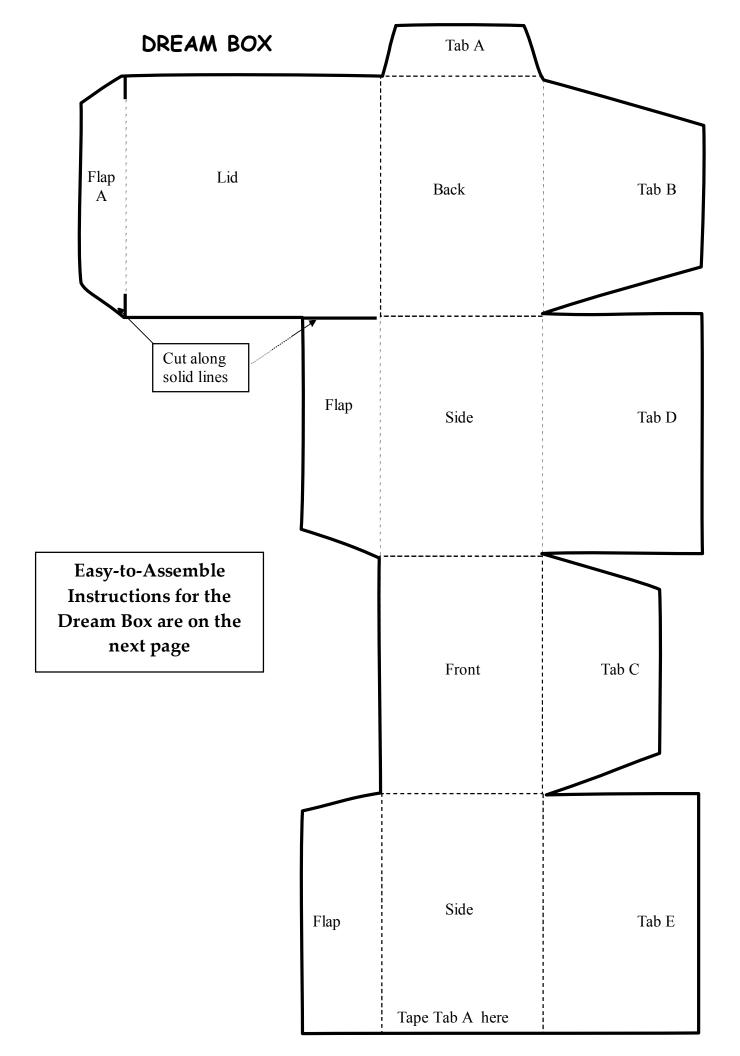

- **1**. Suggest to the student that he/she tell or read the story of *The Boy Without a Name* to a family member.
- **2**. Have the students interview someone in their family as if the student were a writer or reporter and wanted to write a story about something the family member experienced while reaching a goal using patience and determination. Tell the students to ask their family member what happened, and make notes for the story to be written later.
- **3**. Have them compare what their family member did with what Benaam did in the story when he wanted a name so badly. The family member may want to help with thinking of comparisons.
- **4**. The student and the family member can draw a picture together to show what they discussed in the interview.
- **5**. If students want to share the comparisons or pictures done at home with the class, have them first ask permission from the family member before sharing them with the class.

More from The Library of Congress lecture, "Teaching-Stories and the Brain," by Robert Ornstein, Ph.D.

"Teaching-Stories exist in all cultures. An analysis of the stories throughout the world shows that the same stories occur time and again in different cultures. It is the 'Disneyfication' of such stories – the selection and retelling of only those elements within the original that have a strong emotional appeal – that has lead to the temporary demise in Western culture of the Teaching-Story as a developmental instrument."

"... if we spend enough time with these tales to become familiar with them so that we not only remember them but can keep a place for them in our minds, we will experience dimensions of meaning that increase as our experiences increase, gaining additional deeper analogical insights from each tale."

(go to http://hoopoekids.com/sources.htm to view the complete lecture)

Dream Box Directions

(To make larger boxes, enlarge the template.)

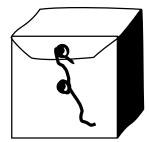

- **1.** Transfer or copy the pattern onto white 8.5"x11" cardstock.
- **2.** Cut along solid lines.
- **3.** Using a ruler, transfer the dotted lines onto the box where shown. These will help show where the drawing and decorating areas are: Lid, Front, Back and Sides.

(NOTE: If you are assembling the box first, then decorating, proceed to steps 5-9, and decorate after the box dries.)

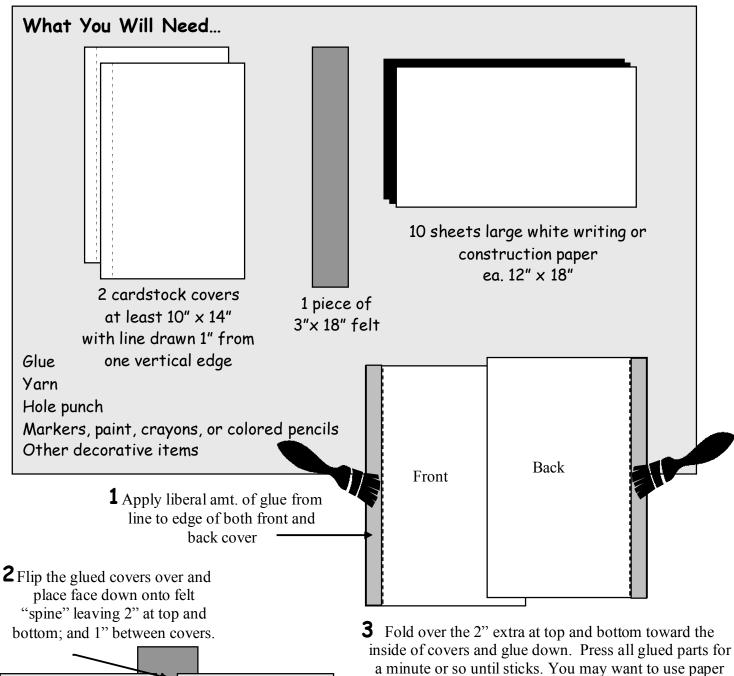

- **4.** Draw on and decorate both sides of the box in the drawing areas. **Do not draw on or decorate the tabs or flaps.** One side of the box will be the "inner self" and the other side will be the "outer self." You may want to allow the decorations to dry before box assembly.
- **5.** Use a ruler to help fold along dotted lines. Fold all creases in the same direction toward the inside, and **make sure the** "outer-self" side is on the outside.
- **6.** Tape or glue Tab A into place, making sure to line up the fold lines.
- **7.** Tape or glue Tab B over Tab C.
- **8.** Tape or glue Tab D over Tab E.
- **9.** Fold Top and all flaps inward toward inside of box. Close lid.

Fancy Fasteners:

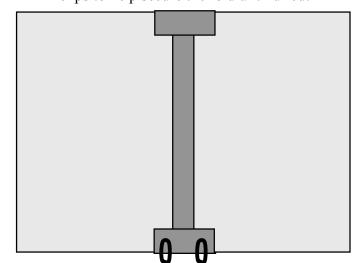

You may want to attach a brass fastener to the front of the box and a corresponding fastener to Flap A. Instead of inserting Flap A inside Box, tie a piece of yarn tightly to the fastener head, leaving a long strand to wrap around the fastener head on the front. (See example.)

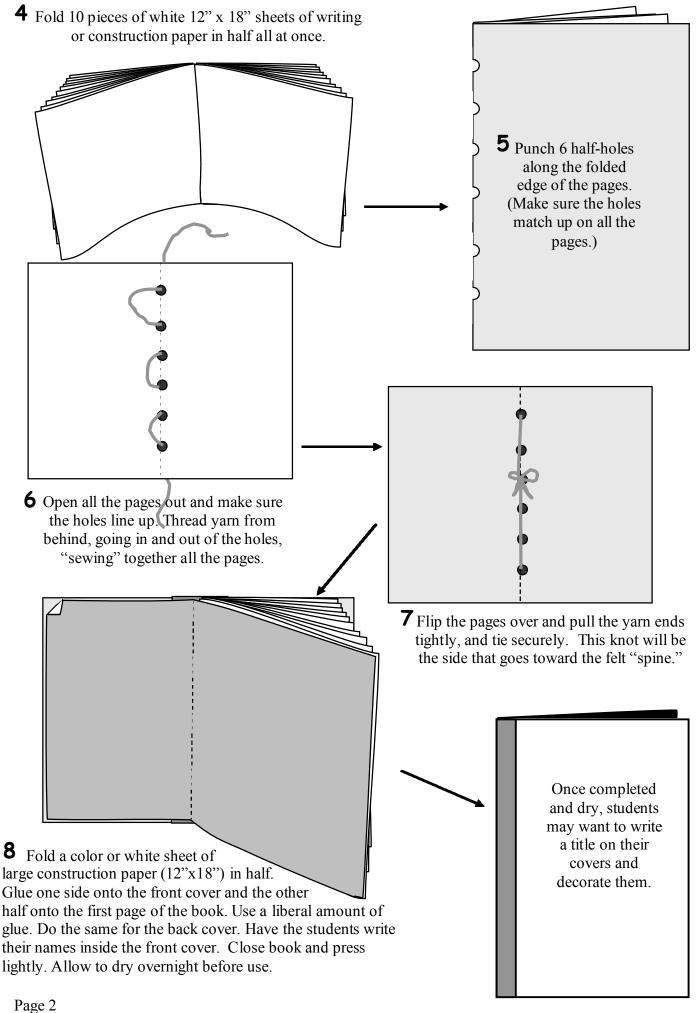

BOOK-MAKING INSTRUCTIONS

Front Back clips to help secure the fold until dried.

Hoopoe Books Teaching-Stories

The Boy Without A Name Paper Bag Puppets

With bag over hand, move the puppet's mouth.

<u>Materials you will need:</u> lunch-size paper bags, colored pencils, crayons, markers, glue, paste spreader, colored construction paper or cardstock, tape, scissors, stapler, newsprint for desks or tables. *Optional:* tissue paper, wrapping paper, old shopping bags, pipe cleaners, foil, beads, buttons, fabric scraps, yarn for hair, plastic eyes, etc.

For color versions of these instructions, go to www.hoopoekids.com

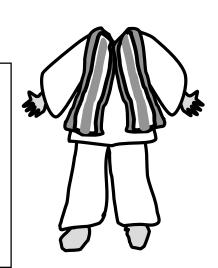

- 1. With a piece of cardstock or construction paper about the same size as the flap of the bag, draw and color the top part of Nameless' face (eyes, ears, cheeks, and nose). Or, glue on plastic eyes, colored paper eyes and cheeks, etc. Cut out face. (Optional: draw and cut out ears separately and glue to back of head piece.)
- 2. For the hair & cap: Choose another color construction paper, outline and cut out his hair and glue onto top of face. Or cut out short pieces of yarn or felt and glue to the top of the face piece. Set the head aside while drawing and cutting out the cap. Make sure the cap is wide enough to cover top of head piece. Glue or staple the cap on top of the hair. Options for cap: Glue on fabric scraps; decorate with drawing, coloring or gluing on bits of colored construction paper. Draw and cut out a red tongue and glue under the flap (see illustration above).
- 3. For Nameless' clothes & body: Using construction paper, wrapping paper, old shopping bags draw and cut out the shirt including the sleeves. Make sure the shirt is about 2/3 the length of the paper bag. Draw and cut out the trousers to be no longer than 1/2 the length of the paper bag. Color or decorate the pieces if desired. For the vest: draw and cut out the panels and decorate by gluing on strips of colored construction paper, ribbon, or drawing. Hands/Shoes: Draw and cut out hands and shoes using colored construction paper, or white art paper and coloring as desired. Glue the hands to the back of the sleeves of the shirt; glue the shoes on the back of the trouser legs.

Body assembly: Glue the trousers/shoe piece to the front of the paper bag so that the shoes extend just beyond the opening of the bag. Glue the vest pieces in place on the shirt (see illustration). Glue the shirt/hands/vest piece over the trousers and under the flap of the bag (make sure the red tongue is not covered.

4. Glue the head/cap piece onto the top flap of the paper bag. Allow the entire puppet to dry before use.

Puppet Theater Ideas

- Place a tablecloth or sheet over a table and students sit under table and extend their puppets out from under the cloth to do their dialogues.
- Cut a rectangular window on the front of a large cardboard box (such as an appliance box) and a "stage door" in the back. Have 1-2 students go inside box and perform their skits through the window.
- Place chairs facing each other and have students sit and perform their skits to each other. Have these puppets available for use whenever wanted.

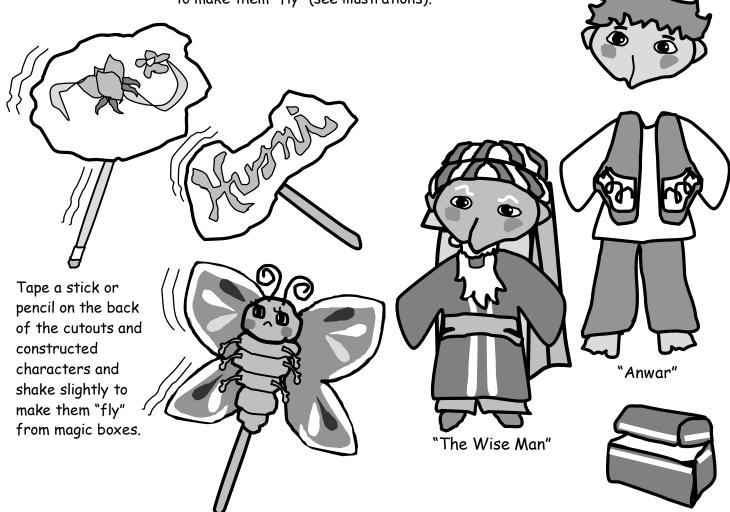

Anwar and Wise Man's Puppets (see suggestions below): Follow directions for Nameless for making head, cap, clothes, hands, feet, shoes for Anwar and/or the Wise Man. Anwar's clothes can be decorated differently, perhaps by gluing on ribbon on the vest, etc. The Wise Man's tunic is longer than the shirt of Nameless, so extend it and shorten the trousers. Use imagination in drawing and decorating other puppets.

Optional Characters: Nameless' parents, misc. village people, kitty, other village animals

Other objects: Draw and cut out the Wise Man's "dream/name chests." Decorate the chests with pieces of colored construction paper, foil, painting, etc. Or, decorate small boxes to look like a "dream/name chests" by gluing on wrapping paper, colored paper, adding glitter, beads, sequins, and so on.

Stick Props: Using construction or art paper, draw and decorate fancy names, butterflies, birds, (or any "dream" objects or characters desired) that fly from the "name/dream boxes." Cut these figures out and glue or tape to a popsicle stick or pencil. Shake the stick props to make them "fly" (see illustrations).

Allow the puppets to dry completely before use. Sometimes an extra bit of glue, tape or stapling needs to be applied for stabilization. HAVE FUN!

Hoopoe Teaching-Stories How To Make Felt-Board Characters

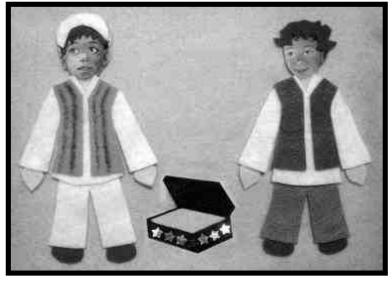

The Boy Without A Name

SUPPLIES:

- 1. Felt: blue, brown, light-orange, light-peach, purple and white
- 2. Good all-purpose glue (works best!)
- 3. Markers, fine-point: black and red
- 4. Scissors

ANOTHER OPTION:

- 1. Make color copies of characters from the book
- 2. Glue them to felt and trim NOTE: Paper Craft Glue works best!

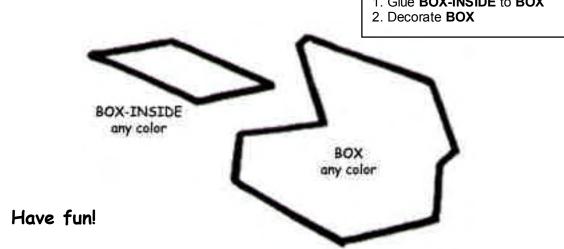

See below and next page for pattern pieces that you can copy and use for making this scene. For color versions of these instructions or help on making a felt board, go to www.hoopoekids.com.

HUSNI:

- 1. Cut out **SHIRT** and glue **VEST** (light-orange) on front
- 2. Glue **HEAD**, **HANDS** and **PANTS** (white) to back of **SHIRT**
- 3. Glue **SHOES** to back of **PANTS**
- 4. Draw face or glue on color copy
- 5. Glue on HAIR (HUSNI)
- 6. Glue on HAT

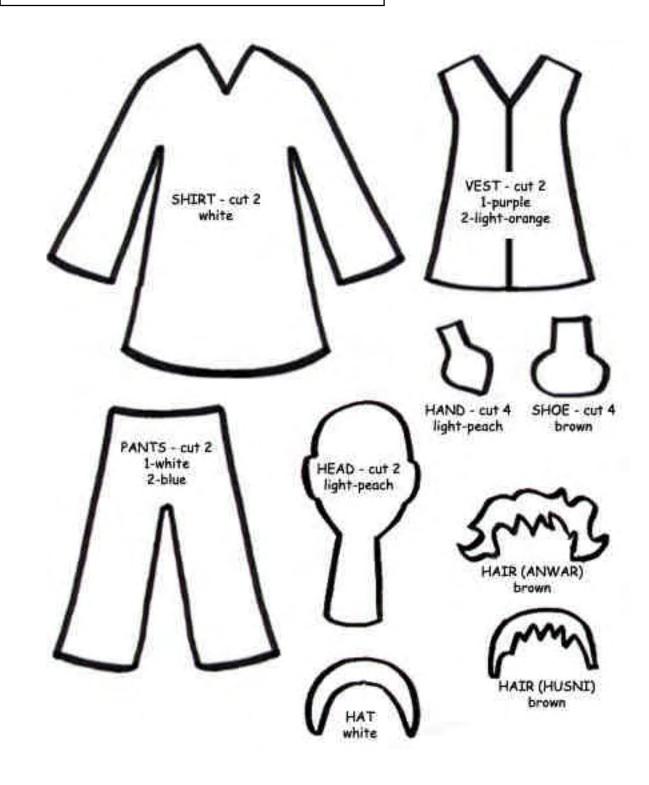

BOX:

1. Glue **BOX-INSIDE** to **BOX**

ANWAR:

- 1. Cut out SHIRT and glue VEST (purple) on front
- 2. Glue HEAD, HANDS and PANTS (blue) to back of SHIRT
- 3. Glue **SHOES** to back of **PANTS**
- 4. Draw face or glue on color copy
- 5. Glue on HAIR (ANWAR)

ACAUTION: Avoid injury! Adult supervision recommended, if necessary. This project includes cutting with scissors!

Hoopoe Teaching-Stories

How To Make a Finger-Puppet

The Boy Without A Name

See next page for pattern pieces that you can copy and use for making this puppet. For color versions of these instructions, go to **www.hoopoekids.com**.

Step 1:

- 1. Roll BODY around your finger so it's snug
- 2. Sew along open edge

Step 2:

- Line up **HEAD** pieces and sew along the upper edge
- 2. Place stretched cotton ball inside **HEAD**
- 3. Sew rest of open edge around **HEAD** and neck
- 4. Draw Husni's face or glue on a copy

Step 3:

- 1. Sew HAIR on front of HEAD
- 2. Line up **HAT-FRONT** and **HAT-BACK** and sew along upper edge attaching it to **HEAD**

Step 4:

- 1. Place **HEAD** along top edge of **BODY**
- 2. Sew to attach

Step 5:

- 1. Place body on top of **SHIRT-BACK**
- 2. Place **SHIRT-FRONT** on top, lining up front and back
- Sew edges of SHIRT: shoulders, under-arms and sides

Step 6:

- 1. Place each HAND inside bottom of shirt-sleeve
- 2. Add a few stitches to attach

Step 7:

- 1. Place body on top of VEST-BACK
- 2. Place **VEST FRONT-RIGHT** and **FRONT-LEFT** on top, lining up front and back
- Sew edges of VEST: shoulders and sides
- 4. Draw stripes of VEST

Step 3

Step 4

Step 5

Step 6

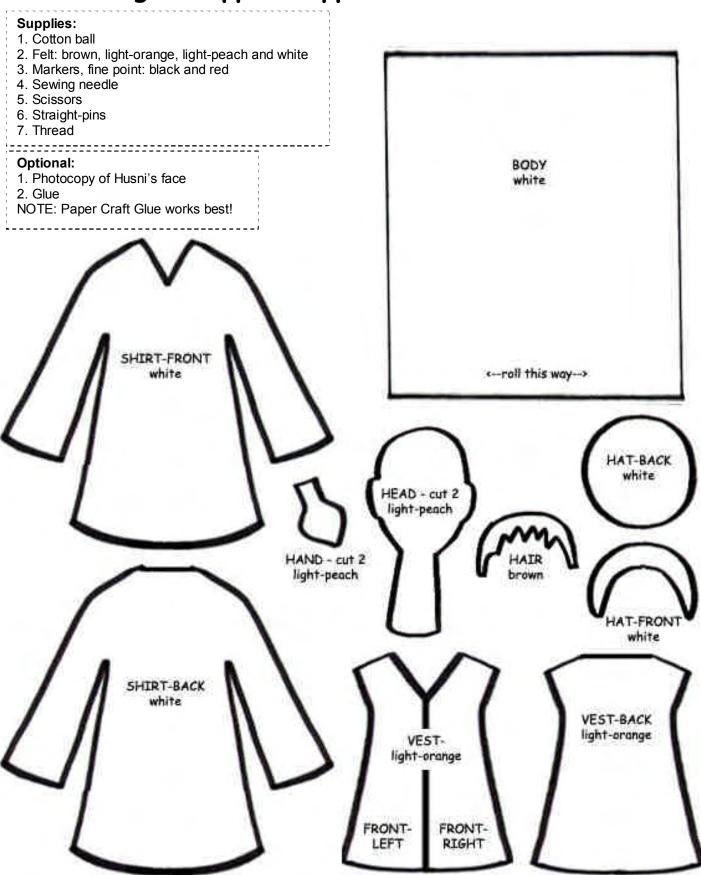

Step 7

Have fun!

ACAUTION: Avoid injury! Adult supervision recommended, if necessary. This project includes cutting with scissors, using a sharp sewing needle and sharp straight-pins!

Finger-Puppet Supplies & Pattern Pieces

A one-act dramatic play The Boy Without a Name

by Idries Shah

CAST

Narrator 1

Narrator 2

Narrator 3

The Wise Man: dressed in a long belted

coat and turban

The Parents of Nameless (or Benaam – whose name changes to Husni)

Nameless (Benaam - whose name changes to Husni in the middle of the play)

Anwar

The Other Participants in the Play

IDEAS FOR PROPS

(Props are optional and can all be constructed out of cardboard and other common items.)

- 1. Magic Boxes (decorated with exotic colors and images), such as a small box "full of all kinds of names...from all the countries of the world." You might research and discuss in class what each child's name would be in a different country. (For example, John would be Jean in France, or Joseph would be Giuseppe in Italy.) Have the students come up with various names. Write these down on pieces of paper and place them in the box. You might refer to the illustrations in the book for ideas. (See other ideas for researching names in the "Home/School" section of the Teacher's Lesson Plan.)
- **2. A box "of dreams** that people don't want." Have the class decide on a dream that Husni might not want and make an image of it.
- **3. A box "full of wonderful dreams"**: Ask the students to share their ideas of what they think is "wonderful," then have them draw or cut out from magazines images that illustrate these ideas. Fill the box with these images. The book's illustrations offer some "wonderful" ideas, too.
- **4. Items in the Wise Man's house**: colorful pillows, "oriental" rugs, a cat, etc.

THE SCRIPT FOR THE BOY WITHOUT A NAME

Narrator 1: Once upon a time, long, long ago, in a country far from here, there lived a boy who had no name.

Narrator 2: It is very strange to have no name, and you might ask...

One of the Participants: Why didn't he have a name?

Narrator 3: Well, it was like this.

Narrator 1: On the day he was born, his parents were just about to choose a name for him...

Narrator 2: when a very wise man came to the house.

The Wise Man (*to the parents*): This is a very, very important boy, and I am going to give him something marvelous one day, but I will have to give him his name first. So please don't give him a name yet.

The Parents: All right, but when will he get a name?

The Wise Man: I cannot say now, but remember, he is a very important boy and you must be careful not to give him a name.

Narrator 3: So the parents called him "Benaam"...

Narrator 1: which means "Nameless" in the language of that country.

Narrator 2: For he was a boy without a name.

Narrator 3: One day Nameless went to see his friend who lived in the next house.

Nameless (*to his friend Anwar*): Everybody has a name, and I would like to have one, too. Do you have a name you can give me?

Anwar: I only have one name. It is Anwar. That's my name, and I need it. If I gave it to you, what would I do for a name? Besides, what would you give me if I did give you my name? You haven't got anything.

Nameless: I've got a dream I don't want. I could give you that.

Anwar: But how can we find out how to get a name and how to pass on a dream from one person to another?

Nameless: I know, let's go and ask the wise man!

Narrator 1: Now, the wise man knew everything, and fortunately he didn't live very far away.

Narrator 2: So Nameless and Anwar went to his house and they knocked on the door.

Narrator 3: As soon as he saw them, the wise man said...

The Wise Man: Come in, Nameless and Anwar...

Narrator 3: even though he had never seen them before.

Nameless and Anwar (*in unison*): How did you know who we were?

The Wise Man: I know many things. And, besides, I was expecting you. Sit down here, and I'll see what I have in my magic boxes.

(Nameless and Anwar sit down on the cushions beside the wise man.)

The Wise Man (*picking up the small box of "names"*): This is a magic box, and it's absolutely full of all kinds of names. You just see.

Narrator 1: And when he opened the lid of the box, the boys could hear all the names in it.

All Other Participants: (in unison, whisper the names written on the pieces of paper in the box...have each participant pick a different name to whisper.)

Narrator 2: There were all kinds of names.

All of the Narrators: Names, names, names.

Narrator 3: Names saying themselves...

Narrator 1: names saying other names.

Narrator 2: Names saying names from all the countries of the world.

Narrator 3: And the wise man picked a name out of the box and handed it to Nameless...

Narrator 1: and the name jumped onto his hand...

Narrator 2: ran up his arm and sprang onto his shoulder...

Narrator 3: and then it went into his ear...

Narrator 1: and right into his head.

All of the Narrators: And suddenly he knew that he had a name!

Nameless – now known as Husni: Hooray! Hooray! I've got a name. I am Husni!

Narrator 2: Husni was his name.

Anwar: But I want the dream that Husni promised me!

The Wise Man: Patience, my boy!

(*Pick up the box of "dreams that people don't want" and open it*)

This is a box of dreams that people don't want. You just stroke your head to take the dream out of it, Husni, and then put the dream into this box.

Narrator 3: And Husni did so, and, sure enough, when he stroked his head he found that the dream came into his hand...

Narrator 1: and when he put his hand down near the box, the dream popped into the box.

(Husni holds the picture that the class made of the dream he didn't want and puts it in the box.)

The Wise Man (*picking up the box of "wonderful dreams" and opening it*): This box is full of wonderful dreams!

Narrator 2: And the two boys could see all sorts of marvelous dreams inside.

All of the Narrators: Wonderful, wonderful dreams!

All Other Participants: (pick out of the box the images of dreams that they created.)

The Wise Man: I am going to give you one dream each. Pick a dream.

Narrator 3 (as the boys pick a dream out of the box): And the dreams, as soon as they caught hold of them...

Narrator 1: ran up their arms, onto their shoulders, into their ears...

Narrator 2: and right into their heads...

Narrator 3: just as Husni's name had done. And after that...

All of the Narrators: forever and ever, Husni had a name...

All of the cast: and the two boys, Husni and Anwar, always had wonderful dreams.

THE END
